The Quick and the Dead Andrew Gordon, Calvin Schwabe, 2004-11-01 This volume uses a cross disciplinary approach to examine the origins of ancient Egyptian medicine in the domestication care and sacrifice of cattle Ritual cattle sacrifice in Egypt led to a rudimentary understanding of animal anatomy and physiology which was then applied to humans Two original theories developed from this comparative medicine Life as movement especially seen in the fasciolations of excised limbs and the male s role in reproduction Discussions include Egypt as a cattle culture the ka as an animating force living flesh the possible animal origins of the ankh djed and was hieroglyphs the bull s foreleg and the Opening of the Mouth ritual Egypt s healing establishment and veterinary medicine as it relates to the origin of human medicine *Friendship and the Moral Life* Paul J. Wadell C.P., 1990-11-30 Friendship and the Moral Life is not simply a theoretical argument about how moral theology might be done if it took friendship more seriously Rather the book exhibits how without friendship our lives are morally not worth living The book begins with a consideration of why a new model of the moral life is needed Wadell then examines the ethics of Aristotle who viewed the moral life as based on a specific understanding of the purpose of being human with friendship being an important factor in enabling people to acquire virtues necessary for achieving this purpose Through the thought of Augustine Aelred of Reivaulx and Karl Barth the question is raised whether friendship is at odds with Christian love or whether their relation depends on one s narrative account of friendship Thomas Aquinas understanding of charity as friendship with God is examined to clarify this relationship By locating friendship within the story of God s redemption through Christ Wadell helps us see why friendship properly understood is integral to the Christian life and not at odds with it Such a friendship draws us to love all others who seek God and teaches us not to restrict our concern to a special few in preferential love The book closes by investigating how friendship as a model for the moral life might work in everyday life

The Missing Gospels Darrell L. Bock,2007-10-07 IS JESUS WHO YOU THINK HE IS Perhaps you ve heard the recent buzz about alternative Christianities and new gospels Speculations have shown up in magazines documentaries popular

fiction and even on the big screen Much of the controversy stems from a library of ancient texts found at Nag Hammadi Egypt Now revolutionary questions about the Christian faith are being raised as a result of these findings Is Jesus truly a divine Savior or just a teacher of wisdom Is orthodoxy a by product of third century or fourth century theologians Did Judas betray Jesus because of evil intent or a request by Jesus Does salvation include the physical body or just the soul Darrell L Bock takes you on a tour of the new claims as well as the controversial writings examining their origins and comparing them with traditional sources With discussion questions for group or individual study at the end of each chapter The Missing Gospels will help you understand the messages of all of these writings so you can form your own opinion This provocative work could even change what you believe

Twenty-six Additional Scientific Papers and Philosophical Essays That Will Eventually Compel Scholars to Rethink the World Daniel Zanolu, 2024-01-08 This compilation of twenty six scientific papers and philosophical essays expands the mind body problem of the French philosopher and mathematician Ren Descartes We expose the nature of consciousness we discuss its origin and manifestations in living organisms We distinguish it from life and elaborate on human existence on Earth From there we solve the ancient enigma posited by Epicurus the Greek philosopher In science we take over Schrodinger's works on the body's entropy and use the research of the Japanese Nobel laureate Yoshinori Ohsumi to explain how non living atoms transition to living molecules Francis Crick's faded dream that becomes reality We delve into the living organisms to explain various losses of consciousness and awareness including sleep syncope and death We mainly focus on sleep to elucidate this mystery

that no living organisms escape **Jürgen Moltmann's Ethics of Hope** Timothy Harvie, 2016-05-06 This book develops a thorough account of the sphere of human moral action in sustained dialogue with Jürgen Moltmann. By examining God's role as promise giver particularly in the Christian understanding of resurrection, this work describes the occupancy of both history and space in moral terms. This leads to an understanding of Jesus' description of the kingdom of God to feature prominently in describing both the possibility and content of human moral action. By offering an account of each of the main doctrines found in Moltmann's corpus—the role of the future, the Trinity, the Holy Spirit, and anthropology—this book locates how each contributes to the understanding of ethics from a Christian perspective and subsequently applies these findings to the contemporary issue of poverty and global economics.
