*Moral Disagreement* Rach Cosker-Rowland, 2020-11-25 Widespread moral disagreement raises ethical epistemological political and metaethical questions Is the best explanation of our widespread moral disagreements that there are no objective moral facts and that moral relativism is correct Or should we think that just as there is widespread disagreement about whether we have free will but there is still an objective fact about whether we have it similarly moral disagreement has no bearing on whether morality is objective More practically is it arrogant to stick to our guns in the face of moral disagreement Must we suspend belief about the morality of controversial actions such as eating meat and having an abortion And does moral disagreement affect the laws that we should have For instance does disagreement about the justice of heavily redistributive taxation affect whether such taxation is legitimate In this thorough and clearly written introduction to moral disagreement and its philosophical and practical implications Rach Cosker Rowland examines and assesses the following topics and questions How does moral disagreement affect what we should do and believe in our day to day lives Epistemic peerhood and moral disagreements with our epistemic peers Metaethics and moral disagreement Relativism moral objectivity moral realism and non cognitivism Moral disagreement and normative ethics Liberalism democracy and disagreement Moral compromise Moral uncertainty Combining clear philosophical analysis with summaries of the latest research and suggestions for further reading *Moral Disagreement* is ideal for students of ethics metaethics political philosophy and philosophical topics that are closely related such as relativism and scepticism It will also be of interest to those in related disciplines such as ethics and public policy and philosophy of law

*Dissident Philosophers* T. Allan Hillman, Tully Borland, 2021-11-19 The book consists of sixteen essays and an introduction from prominent philosophers who are at odds with the predominant political trends of academic philosophy political trends primarily associated with leftism Some of these philosophers identify explicitly with the political right an admittedly broad term which ranges from American conservative to British Tory from religious right to non religious right from libertarian to authoritarian Yet other dissident philosophers eschew the left right dichotomy altogether while maintaining a firm political distance from the majority of their left leaning colleagues The primary goal of the volume is to represent a broad constituency of political philosophies and perspectives at variance with the prevailing political sentiments of the academy Each essay is partly autobiographical in nature detailing personal experiences that have influenced these philosophers throughout their lives and partly philosophical putting forth reflections on the intellectual viability of a right leaning or decidedly non left leaning political philosophy or some segment of it The contemporary university is supposed to be the locus of viewpoint diversity and yet as is evident to professors students and

virtually anyone else who sets foot within its halls it most certainly is not particularly in matters political Nevertheless these essays are not instances of special pleading or grievance incitement Instead each article provides a glimpse into the life of an academic philosopher whose views have largely been at odds with peers and colleagues Furthermore all of the essays were consciously constructed with the aim of being philosophically rigorous while eschewing technical language and verbose prose In short the essays will be enjoyable to a wide audience
