Seducing the Eighteenth-Century French Reader Paul J. Young, 2016-12-05 As he demonstrates that narratives of seduction function as a master plot for French literature in the eighteenth century Paul Young argues that the prevalence of this trope was a reaction to a dominant cultural discourse that coded the novel and the new practice of solitary reading as dangerous seductive practices Situating his study in the context of paintings educational manuals and criticism that caution against the act of reading Young considers both canonical and lesser known works by authors that include Rousseau Sade Bastide Laclos Crillon fils and the writers of two widely read libertine novels How these authors responded to a cultural climate that viewed literature and especially the novel as seductive sheds light on the perils and pleasures of authorship the ways in which texts interact with the larger cultural discourse and what eighteenth century texts tell us about the dangers of reading or writing Ultimately Young argues the seduction not in the text but by the text raises questions about

Revolutionary Love in Eighteenth- and Early Nineteenth-Century France Allan H. Pasco,2016-12-05 In this innovative study the author carves out a new field a sociology of literature in which he offers insightful commentary about the nexus of literature and society Calling on history sociology and psychology as well as literature as points of reference Allan Pasco examines the conceptual shift in the ideal of love in eighteenth century France Pasco explores the radical though gradual changes that occurred during the Enlightenment with respect to how the emotion of love was viewed Earlier love had been subordinate to the demands of family king and deity passion was dangerous and to be avoided But over time individual happiness became the greatest good and passion the measure of love Authors as diverse as Marivaux Marmontel Rousseau Bachelard d Arnaud Pigault Lebrun and Madame de Sta l make it clear that the ideal of rapturous love did not live up to its billing it did not last and it brought destructive fantasies an epidemic of disease the scourge of divorce and considerable anguish Still as Pasco points out passion became and remained the ideal and the Romantics were left to plumb its nature

From Wives to Widows in Early Modern Paris Janine M. Lanza,2016-04-22 Looking especially at widows of master craftsmen in early modern Paris this study provides analysis of the social and cultural structures that shaped widows lives as well as their day to day experiences Janine Lanza examines widows in early modern Paris at every social and economic level beginning with the late sixteenth century when changes in royal law curtailed the movement of property within families up to the time of the

French Revolution The glimpses she gives us of widows running businesses debating remarriage and negotiating marriage contracts offer precious insights into the daily lives of women in this period Lanza shows that understanding widows dramatically alters our understanding of gender not only in terms of how it was lived in this period but also how historians can use this idea as a category of analysis Her study also engages the historiographical issue of business and entrepreneurship particularly women's participation in the world of work and explicitly examines the place of the law in the lived experience of the early modern period How did widowed women use their newly acquired legal emancipation How did they handle their emotional loss How did their roles in their families and their communities change How did they remain financially solvent without a man in the house How did they make decisions that had always been made by the men around them These questions all touch upon the experience of widows and on the ways women related to prevalent structures and ideologies in this society Lanza's study of these women the ways they were represented and how they experienced their widowhood challenges many historical assumptions about women and their roles with respect to the law the family and economic activity

Thinking about the Enlightenment Martin Davies, 2016-03-31 Thinking about the Enlightenment looks beyond the current parameters of studying the Enlightenment to the issues that can be understood by reflecting on the period in a broader context Each of the thirteen original chapters by an international and interdisciplinary team of contributors illustrates the problematic legacy of the Enlightenment and the continued ramifications of its thinking since the eighteenth century Together they consider whether modernity can see its roots in the intellectual revolution of the seventeenth and eighteenth centuries The collection is divided into six sections preceded by a comprehensive introduction to the field and the most recent scholarship on the period Across the sections the contributors consider modern day encounters with Enlightenment thinking including Kant's moral philosophy the conflict between reason and faith the significance of the Enlightenment of law and the gender inequality that persisted throughout the eighteenth century By examining specific encounters with the problematic results of Enlightenment concerns the contributors are able to illuminate and offer new perspectives on topics such as human nature race politics gender and rationality Drawing from history philosophy literature and anthropology this book enables students and academics alike to take a fresh look at the Enlightenment and its legacy in the modern world

Conduct Books for Girls in Enlightenment France Nadine Berenguier, 2016-05-23 During the eighteenth century at a time when secular and religious authors in France were questioning women's efforts to read a new literary genre emerged conduct books written specifically for girls and unmarried young women In this carefully researched and thoughtfully argued book Professor Nadine Berenguier shares an in depth analysis of this development relating the objectives and ideals of these books to the contemporaneous Enlightenment concerns about improving education in order to reform society Works by Anne Therese de Lambert Madeleine de Puisieux Jeanne Marie Leprince de Beaumont Louise d'Epinay Bartholomy Gaillard de Graville Chevalier de Cerfvol abb Joseph Reyre Pierre Louis Roederer and Marie Antoinette Lenoir take up a wide variety of topics and vary dramatically in tone But they all share similar objectives acquainting their young female readers with the moral and social rules of the world and ensuring their success at the next stage of their lives While the authors regarded their texts as furthering the common good they were also aware that they were likely to be controversial among those responsible for girls education Berenguier's sensitive readings highlight these tensions as she offers readers a rare view of how conduct books were conceived consumed re edited memorialized and sometimes forgotten In the broadest sense her study contributes to our understanding of how print culture in eighteenth century France gave shape to a specific social subset of new readers modern girls

The Twilight of the Goddesses Madelyn Gutwirth, 1992 In this extraordinarily rich book Madelyn Gutwirth examines over one hundred prints and paintings dozens of texts and the work of a great many cultural critics in order to consider how gender politics were played out during a highly volatile era Finding evidence of a crisis in gender relations during the eighteenth century she traces its evolution in the politics of rococo art demographic trends plans for the control of prostitution maternal nursing and wet nursing practices folklore the salon and in the theater of Diderot and the polemics of Rousseau Gutwirth shows how a hostile gender ideology consigned women to a solely mothering role before the political revolution began and how women who struggled to participate in the nascent First French Republic found themselves hobbled by the representational practices of the revolutionaries especially their use of allegory The artificiality and anachronism of the Revolution's representation of women were ratified by the Napoleonic Code Once depicted as erotic goddesses by the rococo then as goddesses of liberty Marianne the dominant figuration of women around 1800 would become the dying waif As modern republics began their struggle toward legitimacy women's posture within them had been reduced by representation to feeble marginality Gutwirth combines perspectives from literature history sociology demography psychology and art history and criticism in her delineation of this crisis

Sex and Enlightenment Rita Goldberg,1984-06-21 Dr Goldberg argues that Samuel Richardson had expressed a powerful and hitherto unperceived sexual mythology in Clarissa making it the popular masterpiece it quickly became There had never before been a work of literature in which the rape of a woman became the moral indictment of an age Clarissa was a book which changed minds It is not surprising that Diderot the French philosophe drew on Richardson as the inspiration for his own novel La Religieuse Richardson s novels had achieved Diderot s declared aim as editor of the great Encyclop die to change the way people think For both writers it had become clear that the boudoir had replaced the Puritan closet and the Catholic confessional as the location for tests of virtue Dr Goldberg offers an original comparative reading of the works of these French and English innovators She leaves us in little doubt that our understanding of what it means to be a woman in our culture owes much to the turbulent world of Richardson and Diderot

The New Logic of Sexual Violence in Enlightenment France Mary McAlpin,2023-11-08 This book argues that rape as we know it was invented in the eighteenth century examining texts as diverse as medical treatises socio political essays and popular novels to demonstrate how cultural assumptions of gendered sexual desire erased rape by making a woman s non consent a logical impossibility The Enlightenment promotion of human sexuality as natural and desirable required a secularized narrative for how sexual violence against women functioned Novel biomedical and historical theories about the natural sex act worked to erase the concept of heterosexual rape McAlpin intervenes in a far ranging assortment of scholarly disciplines to survey and demonstrate how rape was rationalized the history of medicine the history of sexuality the development of the modern self the social contractarian tradition the global eighteenth century and the libertine tradition in the eighteenth century novel This intervention will be essential reading to students and scholars in gender studies literature cultural studies visual studies and the history of sexuality

Sentimental Savants Meghan K. Roberts,2016-10-26 An illuminating study of the marriages

and family lives of Diderot Lavoisier and other geniuses of the Age of Reason We may imagine the lone scientific or philosophical genius generating insights in isolation but in reality the families of scientists and philosophers during the Enlightenment played a substantial role not only making space for inquiry within the home but also assisting in observing translating calculating and illustrating Sentimental Savants is the first book to explore the place of the family among the savants of the French Enlightenment a group that openly embraced their families and domestic lives even going so far as to test out their ideas from education to inoculation on their own children Meghan K Roberts delves into the lives and work of such major figures as Denis Diderot Emilie Du Chatelet the Marquis de Condorcet Antoine Lavoisier and Jerome Lalande to paint a striking portrait of how sentiment and reason interacted in the eighteenth century to produce not only new kinds of knowledge but new kinds of families as well A well crafted study an important contribution to what Robert Darnton has called the social history of ideas Choice
