Lucid Dreaming Gateway To The Inner Self:

Lucid Dreaming Robert Waggoner, 2008-10-01 *Lucid Dreaming Gateway to the Inner Self* is the account of an extraordinarily talented lucid dreamer who goes beyond the boundaries of both psychology and religion. In the process he stumbles upon the Inner Self. While lucid, consciously aware in the dream state and able to act and interact with dream figures, objects and settings, dream expert Robert Waggoner experienced something transformative and unexpected. He was able to interact consciously with the dream observer, the apparent Inner Self within the dream. At first this seemed shocking, even impossible, since psychology normally alludes to such theoretical inner aspects as the Subliminal Self, the Center, the Internal Self, Helper in vague and theoretical ways. Waggoner came to realize, however, that aware interaction with the Inner Self was not only possible but actual and highly inspiring. He concluded that while aware in the dream state, one has both a psychological tool and a platform from which to understand dreaming and the larger picture of man's psyche as well. Waggoner proposes 5 stages of lucid dreaming and guides readers through them, offering advice for those who have never experienced the lucid dream state and suggestions for how experienced lucid dreamers can advance to a new level. *Lucid Dreaming* offers exciting insights and vivid illustrations that will intrigue not only avid dreamworkers but anyone who is interested in consciousness, identity and the definition of reality.

Robert Waggoner, 2016-10-11 Learn to control your dreams with this amazing starter kit. *Lucid dreaming will come easy with this guide and dream journal*. *How to Lucid Dream Tonight* Jayne Omojayne, 2016-03-23 *Lucid dreaming has been acknowledged for centuries but has till lately remained a rare and little recognized phenomenon. My own scientific and personal explorations together with the findings of additional dream researchers across the world have merely started to shed light on this strange state of consciousness. Lately this fresh research field has captivated the attention of the population outside the domain of scientific dream research as studies have demonstrated that given suitable training individuals may learn to have lucid dreams. It has been stated that everything is dependent on remembering and this is surely true of lucid dreaming. Learning to recall your dreams is essential if you wish to learn how to dream lucidly. Till you have excellent dream recall you won't bear much probability of bearing many lucid dreams. So I think what you want to do now is get your copy of this book and I welcome you to the world of dreaming in the lucid way as you will learn from reading this book how to dream with lucidity and do so with the ability to recall all the details of your dreams. Well not just that but more importantly how to apply this strategy to solve most of your life issues that may have been giving you some stress.*
