Lufthansa Junkers Ju 52:

The Junkers Ju 52 Story Jan Forsgren, 2017-01-20 The iconic and legendary Junkers Ju 52 first flew in 1930. Designed and built by the Junkers Aircraft Company of Dessau, Germany, the Ju 52 was originally intended as a single-engine cargo aircraft. An upgraded model, the Ju 52 3m, was powered by three engines and excelled as an eighteen-seat airliner. By the late 1930s, hundreds of the safe, reliable, and much-loved Ju 52 3ms were serving with airlines in more than twenty countries, including the pre-war British Airways. Also, it was used as a bomber by the Luftwaffe, particularly in the Spanish Civil War. During the Second World War, the Ju 52 3m was the mainstay of Luftwaffe transport squadrons. Affectionately known as 'Faithful Old Annie' and 'ron Annie', the Ju 52 3m was used during the invasions of Norway, the Low Countries, Crete, and the resupply of Stalingrad and Rommel's Africa Korps. In all, around 5,000 were built, and after the war, production continued in France and Spain. Amazingly, captured Ju 52 3ms were rebuilt post-war and briefly operated as airliners on domestic routes in Great Britain.

Junkers Ju 52 Robert Forsyth, Eddie J. Creek, 2014 As with the other recent books in this series, this classic study of the Ju 52 will offer the most comprehensive account published in recent years of this bulwark of the Luftwaffe, which first saw military service in the 1930s and was then engaged in operations from the Spanish Civil War through to the end of World War 2. The all-metal three-engine Ju 52 3m enjoyed a solid reputation amongst its crews and the troops and paratroops who used it and depended on it. It is a machine synonymous with the images of the German attacks on Holland and France in 1940 and Crete in 1941, when hundreds of Tante Jus were used to drop paratroopers to successfully capture key tactical and strategic areas. The full history, however, goes back much further. Built as a passenger aircraft for Deutsche Lufthansa, the Ju 52 ranged as far as South Africa, Mozambique, India, and Latin America, as well as being operated by several other European countries such as Belgium, Sweden, and Finland, as well as airlines in Brazil, Ecuador, Peru, and Uruguay. Britain operated several Ju 52s. The aircraft was first blooded in the Spanish Civil War, where it was pressed into service as a crude but effective bomber with the Legion Condor. From then on, the Luftwaffe deployed it on every battle front in the West, in the Mediterranean, and in the East. An example also flew in Iraq. The Ju 52 served as a stalwart transport, often operating in the most hostile conditions, with ice or dust lifting men, animals, food, supplies, ammunition, mail, and spare parts vital for German military operations, such as on the North African supply routes at Demyansk, Stalingrad, and also in the Ardennes in 1944. It was also converted into ambulance and mine-hunting roles and was adapted as a seaplane. After the war, the Ju 52 flew on as late as the 1980s, testimony to its strength and reliability.
