Each page addresses a different theological and creative component of what happens in any sermon. Page One presents the trouble or conflict that takes place in or that underscores the biblical text itself. Page Two looks at similar conflict, sin, or brokenness in our own time. Page Three returns to the Bible to identify where God is at work in or behind the text in other words to discover the good news. Page Four points to God at work in our world, particularly in relation to the situations described in Page Two. This approach is about preaching the gospel in nearly any sermonic form. Wilson teaches the what, why, and how of sermon construction, all rooted in a theology of the Word. This completely revised edition guides readers through the sermon process step by step with the aim of composing sermons that challenge and provide hope by focusing on God more closely than on humans. It has been largely rewritten to include an assessment of where preaching is today in light of propositional preaching, the New Homiletic, African American preaching, the effect of the internet, and use of technology. A chapter on exegesis has been added, plus new focus on the importance of preaching to a felt need, the need for proclamation in addition to teaching, and developing tools to ensure sermon excellence. New sermon examples have been added along with a section that responds to critics and looks to the future **Color Code Study Bible, Revealing God's Truth Color by Color (NKJV)** Thomas Nelson, 2025-02-04 The Color Code Study Bible provides a clear path to understanding the Bible.
