postdenominational Christianity for inspiration on how to attract people to the pews but is at the same time intent on preserving its confessional liturgical tradition as much as possible in late modernity As American religion grows increasingly experiential and individualistic the ELCA is caught between its church heritage and a highly innovative culture that demands participative structures and a personal relationship with the divine In the midst of this tension the ELCA is deflating its church hierarchy and encouraging people to become involved in congregations on their own terms while it continues to celebrate its confessional liturgical identity But can this balance between individual and institution be upheld in the long run Or will the democratization and pluralization of the faith ultimately undermine the church This book explores how the ELCA attempts to resist the forces of Americanization in late modernity even as it slowly but surely comes to resemble mainstream American religion more and more
