East - West Dialogues in Philosophy Engin Yurt, Studies of Art Aesthetics and Phenomenology in here there are five studies that work under the thematic title East West Dialogues are presented Each study while on one side they focus on a matter that fits the context of their own title one other side they try to problematize reconstruct within and solve an aspect of the 21 century phenomenology has this manner of double investigation makes studies important and useful for the course of history of phenomenology has This manner of double investigation makes the studies important and useful for the course of history of phenomenology by testing its limits and horizons In here by also through the problematization of the phenomenological horizon this can be said it has been tried to carry phenomenology to its next stage or open it in an intellectual and philosophical East West encounter Without succeeding or failing it even the enterprise itself holds essential insight about the path ahead of the phenomenology Nietzsche one said I imagine future thinkers in whom European American indefatigability is combined with the hundred fold inherited contemplativeness of the Asians such a combination will bring the riddle of the world to a solution Maybe with the help of these studies by attaining a bigger picture every reader might have the chance to realize what Nietzsche and others imagined and wished for Of course the whole combination that Nietzsche talked about surely takes more than thousands of companions and hundreds of years in the making But it would be more than enough for this text to at least contribute the process of the combination

Kant's ›Critique of Aesthetic Judgment‹ in the 20th Century

Stefano Marino, Pietro Terzi, 2020-11-09 Kant's Critique of Judgment represents one of the most important texts in modern philosophy However while its importance for 19th century philosophy has been widely acknowledged scholars have often overlooked its far reaching influence on 20th century thought This book aims to account for the various interpretations of Kant's notion of aesthetic judgment formulated in the last century The book approaches the subject matter from both a

historical and a theoretical point of view and in relation to different cultural contexts also exploring in an unprecedented way its influence on some very up to date philosophical developments and trends It represents the first choral and comprehensive study on this missing piece in the history of modern and contemporary philosophy capable of cutting in a unique way across different traditions movements and geographical areas All main themes of Kant's aesthetics are investigated in this book while at the same time showing how they have been interpreted in very different ways in the 20th century With contributions by Alessandro Bertinetto Patrice Canivez Dario Cecchi Diarmuid Costello Nicola Emery Serena Feloj G nter Figal Tom Huhn Hans Peter Kr ger Thomas W Leddy Stefano Marino Claudio Paolucci Anne Sauvagnargues Dennis J Schmidt Arno Schubbach Scott R Stroud Thomas Teufel and Pietro Terzi

Kant on Sublimity and Morality Joshua W Rayman, 2012-07-15 The sublime is the experience of what is great in power size or number Historically from ancient times to the present this aesthetic experience has always been associated with morality but in order to exclude evil fascistic or terroristic uses of the sublime we require a systematic justification of the claim that there are internal moral constraints on the sublime The author argues that Immanuel Kant alone provides this account binding sublimity to moral ideas the exhibition of freedom the production of respect and violence toward inclinations

Subjects and Simulations Anne O'Byrne, Hugh J. Silverman, 2014-11-05 Subjects and Simulations presents essays focused on suffering and sublimity representation and subjectivity and the relation of truth and appearance in the twenty first century Inspired by the work of Jean Baudrillard Philippe Lacoue Labarthe and JeanLuc Nancy sixteen authors study how the real reasserts itself in an age of every more fragmented media and how art and literature give us access to forms of truth that elude philosophy How does representation grant us access to the place once occupied by the subject Is political life possible Can plural thinking be retrieved Will metaphor and simulation give us ways of being in an evanescent world The volume engages discussions of French and Continental philosophy post structuralism deconstruction simulacra aesthetics existentialism and media theory

Freud and the Scene of Trauma John Fletcher, 2013-12-02 This book will reward scholars across a number of disciplines literary studies trauma studies

psychoanalysis and psychology and philosophy Choice This book argues that Freud's mapping of trauma as a scene is central to both his clinical interpretation of his patients' symptoms and his construction of successive theoretical models and concepts to explain the power of such scenes in his patients' lives This attention to the scenic form of trauma and its power in determining symptoms leads to Freud's break from the neurological model of trauma he inherited from Charcot It also helps to explain the affinity that Freud and many since him have felt between psychoanalysis and literature and artistic production more generally and the privileged role of literature at certain turning points in the development of his thought It is Freud's scenography of trauma and fantasy that speaks to the student of literature and painting *Engendering Blackness* Patrice D. Douglass, 2025-06-24

In this incisive new book Patrice D. Douglass interrogates the relationship between sexual violence and modern racial slavery and finds it not only inseparable but also fundamental to the structural predicaments facing Blackness in the present Douglass contends that the sexual violability of slaves is often misappropriated by frameworks on sexual violence that privilege its occurrences as a question of ethics sexual agency and feminine orders of gendering Rather this book foregrounds Blackness as engendered by sexual violence which forcefully reproduces Blackness corporeally and conceptually as a condition that lacks the capacity to ontologically distinguish its suffering from what it means to be human By employing and critically revising Black feminist theory and Afro-pessimism Douglass reveals that engaging primarily with the sexualization of the slave forces theories of sexual violence to interrogate why this violence one of the most prevalent under slavery continues to lack a grammar of fundamental redress There are no reparations struggles for the generational transfer of sexual violation and the inability of present frameworks to rectify the sexual stains of slavery lies precisely in the fact that what made this history possible continues to haunt arrangements of life today *Engendering Blackness* urgently articulates the way our present understandings of Blackness and humanness are bound by this vexed sexual history

Blending and the Study of Narrative Ralf Schneider, Marcus Hartner, 2012-10-30 The theory of Blending or Conceptual Integration proposed by Gilles Fauconnier and Marc Turner is one of most promising cognitive theories of meaning production It has been successfully applied to the analysis of poetic discourse and micro-textual elements such as metaphor Prose narrative has so far received significantly less attention The present volume aims to remedy this situation Following an introductory discussion of the connections between narrative and the processes of blending the contributions demonstrate the range of applications of the theory to the study of narrative They cover issues such as time and space literary character and perspective genre story levels and fictional minds some chapters show how such phenomena as metalepsis counterfactual narration intermediality extended metaphors and suspense can be fruitfully studied from the vantage point of Conceptual Integration Working within a theoretical framework situated at the intersection of narratology and the cognitive sciences the book provides both fresh readings for individual literary and film narratives and new impulses for post-classical narratology *Psychoanalysis, Apathy, and the Postmodern Patient* Laurence Kahn, 2018-06-19 The postmodern turn

underlies a new development in psychoanalysis which has theoretical and practical implications Psychoanalysis Apathy and the Postmodern Patient involves a detailed reading of the main psychoanalytic texts that mark out this extended development along with a critical examination of the changes in the major Freudian concepts At stake are the tenets of infantile sexuality psychic reality unconscious determinism the fulfilment of unconscious desire and free association In this book Laurence Kahn sets out a critique of postmodern psychoanalysis via a theoretical and clinical discussion that tackles the place of metapsychology and the question of the scientific status of psychoanalysis Starting from Freud's own work she considers such key topics as the analyst's objectivity the relevance of self disclosure the complex influence of French postmodern theorists and the role of empathy in psychoanalytic technique In so doing she offers a perspective on psychoanalytic thought and practice that exposes the insidious taming of the Freudian model in favour of a humanistic and dialogic approach that obliterates the radical otherness of the unconscious Coming from a powerful voice in the contemporary French psychoanalytic tradition Psychoanalysis Apathy and the Postmodern Patient is a bold celebration of psychoanalysis that will be of great interest to psychoanalysts and psychoanalytic psychotherapists as well as philosophers and historians of thought

A Modern Introduction to Theology Philip Kennedy, 2009-09-22 Philip Kennedy here offers the first book that any student with or without religious convictions can profitably use to get quickly to grips with the essentials of the Christian religion its history and its key thinkers its successes and its failures Most existing undergraduate textbooks of theology begin from essentially traditional positions on the Bible doctrine authority interpretation and God What makes Philip Kennedy's book both singularly important and uniquely different is that it has a completely new starting point The author contends that traditional Christian theology must extensively overhaul many of its theses because of a multitude of modern social historical and intellectual revolutions Offering a grand historical sweep of the genesis of the modern age and writing with panache and a magisterial grasp of the relevant debates conflicts and controversies *A Modern Introduction to Theology* moves a tired and increasingly incoherent discipline in genuinely fresh and exciting directions and will be welcomed by students and readers of the subject

Postmodernism and the Ethics of Theological Knowledge Justin Thacker, 2016-04-08 This book establishes the necessary integration of theological knowledge with theological ethics It does this as a response to the postmodern critique of Christianity as exemplified in Rorty and Lyotard They argue that any claim to know God is necessarily tyrannical Contemporary responses to such postmodern thinking often fail to address adequately the ethical critique that is made This book redresses that balance by suggesting that our knowledge of God and love of the Other are so intimately connected that we cannot have one without the other In the absence of love then we simply do not know God Justin Thacker proposes that an effective theological response to postmodernity must address both knowledge and ethics in an integrated fashion as presented in this book

Interreligious Hermeneutics and the Pursuit of Truth J. R. Hustwit, 2014-04-04 Philosophical hermeneutics provides a model of interreligious dialogue that acknowledges the interpretive variability of truth claims while maintaining their relation to a preinterpretive reality The dialectic and tensive structure of philosophical hermeneutics directly parallels the tension between the diversity of belief and the ultimacy of the sacred By placing philosophers like Gadamer Ricoeur Peirce and Whitehead in conversation J R Hustwit describes religious truth claims as coconstituted by the planes of linguistic convention and uninterpreted otherness Only

when we recognize that religious claims emerge from a dalliance back and forth across the limits of the understanding can we appreciate the engagement between religions In terms of dialogue this approach treats religious truth claims as tentative hypotheses but hypotheses that are frequently commensurable and rationally contestable Interreligious dialogue goes beyond facilitating bonhomie or negotiating tolerance dialogue can and should be a disciplined space for rationally adjudicating claims about what lies beyond the limits of human understanding
