

# Welcome to the Case Analysis Coach

This tutorial is designed to start you down the road toward becoming an expert at analyzing business cases. You'll learn how to identify and define the business concepts raised by a case, as well as to develop analysis-based solutions, recommendations, and action plans. These skills will prepare you for class discussions and exams.

You will have access to a complete real case, called **Komatsu Ltd. and Project G.**, so that you can apply what you learn to a concrete example. You will also get other helpful resources, such as a **Case Analysis Worksheet** and samples of class-discussion notes on the Komatsu case that were prepared by real students like you. In addition, smaller excerpts from other real cases are used to illustrate some of the steps in case analysis.
