Basic Rifle Marksmanship Training with the Laser Marksmanship Training System Joseph D. Hagman, 2000. This research compared the relative impact of two approaches for training Basic Rifle Marksmanship (BRM). One hundred and eighty-four One Station Unit Training (OSUT) infantry trainees (i.e. the experimental group) trained under a U.S. Army Reserve (USAR) developed device based (i.e. the Beamhit Laser Marksmanship Training System (LMTS) approach and 202 infantry trainees (i.e. the control group) trained under the standard U.S. Army Infantry School (BRM) program of instruction. Results revealed that the experimental group outperformed the control group on shot grouping, weapon zeroing and known distance firing. No between-group differences were found, however, for record fire qualification scores or for performance during pop-up target engagement practice periods leading up to qualification. The implications of these findings for initial marksmanship training are discussed along with plans for follow-up USAR-sponsored research to assess the impact of LMTS-based training on sustainment performance and the feasibility of using LMTS-based performance to predict live fire qualification scores.

Stinet. Analysis of M16A2 Rifle Characteristics and Recommended Improvements Arthur D. Osborne, 1986. Based on five years of marksmanship-related research for the U.S. Army, the characteristics of the M16A2 rifle developed by the Marine Corps were analyzed to determine what impact new rifle features would have on Army marksmanship training and on combat

effectiveness It was found that use of the M16A2 rifle by the Army would be extremely problematic due in part to the vast differences between the marksmanship training philosophies of the Army and the Marine Corps Numerous recommendations are presented which would result in simplified training and improved combat performance if adopted Keywords Aperture sight Assault fire Automatic fire Ball ammunition Ballistics Battlesight zero Dispersion Collinater M16A1 rifle M16A2 rifle Marksmanship Sight adjustment Tracer ammunition Serviceability checks Point of aim point of impact and Zeroing
