Marcelo Otero, Shirley Roy

M Tamorphoses Services Sant Travail Publique:

Les métamorphoses du politique au Nord et au Sud, 2004 Les mutations politiques en cours sont indissociables des mutations sociales et ne sont pas universelles Elles sont enracinées dans le social voire le culturel Elles sont aussi différentes selon qu'il s'agit des pays occidentaux instigateurs de la mondialisation et des autres pays de la planète qui tout en tant insérés dans le système politico économique actuel ne participent pas la prise des décisions Ces mutations sociales et politiques ont donné lieu des innovations institutionnelles au niveau international régional national et local qui illustrent leur tour les logiques socio politiques en même temps qu'elles influent sur elles C'est cette imbrication du social du politique et de l'institutionnel et sa complexité que nous avons voulu clarifier et expliquer dans la rencontre du Forum de Delphes Le constat qui se dégage partir des textes discutés est complexe On peut en effet identifier un certain affaiblissement du pouvoir politique l'intérieur des nations occidentales et en même temps l'extension de ses prérogatives l'extérieur du territoire traditionnel de la souveraineté On peut aussi identifier des mutations considérables de la nature du pouvoir d'Etat du fait de son alliance avec les lites financières et technico administratives et au delà la dépolitisation des enjeux sociaux En dépit du discours dominant sur la convergence politique de la planète le trait marquant des tendances politiques dans les pays du Sud n'est pas la démocratisation de l'Etat et des sociétés respectives C'est l'affaiblissement de l'Etat sa fragmentation son implosion et sa criminalisation qui est dégage comme tendance lourde

Métamorphoses de l'expertise Céline Granjou, Marc Barbier, 2010-02-16 Les auteurs proposent un regard rétrospectif sur une période fondatrice d'une forme de l

expertise liée aux crises sanitaires des années 1990 La place occupée par la dynamique scientifique du domaine des prions dans les relations entre science et décision publique invite en effet voir dans la vache folle une puissante machine questionner les modalités et le sens d'une transformation profonde et durable des façons de gouverner les risques sanitaires C'est tout particulièrement la structuration inédite d'une référence la précaution travers la constitution d'une conscience réflexive des experts vis-à-vis de la fonction politique de leur travail qui est ici explorée Un livre clairant au moment où les gripes répertitiées tendent construire un état de surveillance généralisée Cet ouvrage apporte une contribution originale qui intéressera autant les chercheurs en sciences sociales que les décideurs
