Is Paris Still the Capital of the Nineteenth Century? Hollis Clayson, 2017-07-05 Is Paris Still the Capital of the Nineteenth Century The question that guides this volume stems from Walter Benjamin's studies of nineteenth century Parisian culture as the apex of capitalist aesthetics Thirteen scholars test Benjamin's ideas about the centrality of Paris formulated in the 1930s from a variety of methodological perspectives Many investigate the underpinnings of the French capital's reputation and mythic force which was based largely upon the city's capacity to put itself on display Some of the

authors reassess the famed centrality of Paris from the vantage point of our globalized twenty first century by acknowledging its entanglements with South Africa Turkey Japan and the United States The volume equally studies a broader range of media than Benjamin did himself from modernist painting and printmaking photography and illustration to urban planning The essays conclude that Paris did in many ways function as the epicenter of modernity s international reach especially in the years from 1850 to 1900 but did so only as a consequence of the idiosyncratic force of its mythic image Above all the essays affirm that the study of late nineteenth century Paris still requires nimble and innovative approaches commensurate with its legend and global aura

excellence in many areas of culture and it is itself constantly being measured both by its lovers and by its critics This book presents a series of studies on the images of Paris presented by writers mostly Canadian from John Glassco to Mavis Gallant to Lola Lemire Tostevin but also in such other areas as social history and personal memoir The result is a wide ranging discussion of the city's history in 20th century literature and thought which will appeal to all those who love Paris or who have ever walked on its streets **Paris 2008** Rachel Klein, Caroline Trefler, 2007 Articles on the history and culture of the French capital augment information on tourist attractions hotels restaurants and shopping facilities throughout the city

Victorine Catherine Texier, 2007-12-18 In 1899 Victorine Texier abandons her small French village her husband and her two young children to follow her lover to Indochina She has fallen for Antoine her childhood sweetheart and when his work sends him to Asia she is compelled to go with him and to leave everything she knows behind Their five weeks together onboard the ship to Indochina are a kind of honeymoon a prelude to their liberation in a sultry new world of frangipani trees and monsoons Victorine gives herself over completely to this exhilarating new life of colonial extravagance that is until she encounters her youngest sister who has also been living in Hanoi and Saigon This reunion both joyous and tense reminds Victorine all too painfully of her life and family in France and forces her to confront exactly what she has done Vividly narrated through a series of flashbacks Victorine is a richly textured and passionate story of rebellion guilt and unruly love

A Fictional History of the United States (with Huge Chunks Missing) T Cooper, Adam Mansbach, 2006-08-01 As political dishonesty continues to infect the ongoing process of history's creation a diverse group of America's best fiction writers take on the challenge of creating counter narratives This ground breaking anthology seeks to challenge tease and expand upon the hegemonic single narrative of mainstream American history moving beyond the canonical to create a patchwork anecdotal history of the young nation Here are the moments and the people left out of the textbooks **Gender, Space, and the Gaze in Post-Hausmann Visual Culture** Temma Balducci, 2017-03-27 Charles Baudelaire's flâneur as described in his 1863 essay The Painter of Modern Life remains central to understandings of gender space and the gaze in late nineteenth century Paris despite misgivings by some scholars Baudelaire's privileged and leisurely figure at home on the boulevards underlies theorizations of bourgeois masculinity and by implication bourgeois femininity whereby men gaze and roam urban spaces unreservedly while women lacking the freedom to either gaze or roam are wedded to domesticity In challenging this tired paradigm and offering fresh ways to consider how gender space and the gaze were constructed this book attends to several neglected elements of visual and written culture the ubiquitous male beggar as the true denizen of the boulevard the abundant depictions of well to do women looking sometimes at men the popularity of windows and balconies as viewing perches and the overwhelming emphasis given by both male and female artists to domestic scenes The book's premise that gender space and the gaze have been too narrowly conceived by a scholarly embrace of Baudelaire's flâneur is supported across the cultural spectrum by period sources that include art criticism high and low visual culture
