Lusch, Stephen L. Vargo, 2014-12-18 Expanding on the editors award winning article *Evolving to a New Dominant Logic for Marketing* this book presents a challenging new paradigm for the marketing discipline This new paradigm is service oriented customer oriented relationship focused and knowledge based and places marketing once viewed as a support function central to overall business strategy Service dominant logic defines service as the application of competencies for the benefit of another entity and sees mutual service provision rather than the exchange of goods as the proper subject of marketing It moves the orientation of marketing from a market to philosophy where customers are promoted to targeted and captured to a market with philosophy where the customer and supply chain partners are collaborators in the entire marketing process The editors elaborate on this model through an historical analysis clarification and extension of service dominant logic and distinguished marketing thinkers then provide further insight and commentary The result is a more comprehensive and inclusive marketing theory that will challenge both current thinking and marketing practice **The Gendered Motorcycle** Esperanza Miyake, 2018-06-14 What happens to gender at 120mph Are Harley Davidsons more masculine than Yamahas The Gendered Motorcycle answers such questions through a critical examination of motorcycles in film advertising and television Whilst bikers and biker cultures have been explored previously the motorcycle itself has remained largely under theorised especially in relation to gender Esperanza Miyake reveals how representations of motorcycles can produce different gendered bodies identities spaces and practices This interdisciplinary book offers new and critical ways to think about gender and motorcycles and will interest scholars and students of gender technology and visual cultures as well as motorcycle industry practitioners and motorcycle enthusiasts *Books and Pamphlets, Including Serials and Contributions to Periodicals* Library of Congress. PLATE: Product Lifetimes And The Environment Conny A. Bakker, 2017-11-15. Product lifetimes are critical for the circular economy: resource efficiency, waste reduction and low carbon strategies for sustainability and are therefore of interest to academics from many different disciplines as well as original equipment manufacturers (OEMs) and other stakeholders. The challenges related to product lifetimes must be tackled from multiple perspectives, making the sharing of knowledge and expertise from different disciplines particularly important. This book presents papers from the second Product Lifetime and the Environment PLATE conference held in Delft, the Netherlands, in November 2017. The conference originated from the desire to bring together academic researchers working in the field of sustainability to benefit from each other's knowledge and further advance the field. The book includes the 88 full papers delivered at the conference, grouped according to the following 7 conference themes: design for product longevity; product lifetime optimization; cultural perspectives on the throwaway society; circular economy and product lifetimes; business opportunities; economic implications and marketing strategies; consumer influences on product lifetimes; and policy, regulation and legislation. The book will be of interest to all those concerned with sustainable consumption, circular economy and resource efficiency.

Uncertainty in Artificial Intelligence 4 T.S. Levitt, L.N. Kanal, J.F. Lemmer, R.D. Shachter, 2014-06-28. Clearly illustrated in this volume is the current relationship between Uncertainty and AI. It has been said that research in AI revolves around five basic questions asked relative to some particular domain: What knowledge is required? How can this knowledge be acquired? How can it be

represented in a system How should this knowledge be manipulated in order to provide intelligent behavior How can the behavior be explained In this volume all of these questions are addressed From the perspective of the relationship of uncertainty to the basic questions of AI the book divides naturally into four sections which highlight both the strengths and weaknesses of the current state of the relationship between Uncertainty and AI **The Preparation of a Product Liability Case** Scott Baldwin, Francis Hare, Francis E.
