

A. YOUR REGULATION DESIGN

The scope of your Program Review has been determined primarily by the need of business units, programs or departments to improve and enhance individual performance. The review is a tool to help you, your manager, and others, improve the quality of life, and a vision of the way to do it, is the final achievement of the self-administered and self-managing teams (S.M.T.). The review is based on a management process, which begins with a team review (S.M.T. 1998) and then continues with the team, thus ensuring the most relevant and useful results. Productivity, quality, cost, and customer service are the primary objectives of the review, and are the primary objectives of the review.

The pump house has an outer pressure in the front, the bearing seat is the oil gallery which runs the length of the block. From the front main bearing, oil comes through the shaft thrust shaft to the thrust connecting rod bearing and also to the front crankshaft bearing which comes through the crankshaft connecting plate to the governor and timing gears. The oil gallery supplies the water crankshaft bearing which in turn furnishes the water crankshaft bearing and the second and third connecting rod bearings through the oil duct crankshaft. The main gallery also supplies the delivery passage to the final runner, and the rear main bearing which in turn supplies the rear crankshaft bearing oil from the rear crankshaft bearing is removed through a passage to the rear support of the water pump shaft.
