The Carbon Farming Solution Eric Toensmeier, 2016-02-22 With carbon farming agriculture ceases to be part of the climate problem and becomes a critical part of the solution This book is the toolkit for making the soil itself a sponge for carbon It s a powerful vision Bill McKibben The Carbon Farming Solution is a book we will look back upon decades from now and wonder why something so critically relevant could have been so overlooked until that time It describes the foundation of the future of civilization Paul Hawken In this groundbreaking book Eric Toensmeier argues that agriculture specifically the subset of practices known as carbon farming can and should be a linchpin of a global climate solutions platform Carbon farming is a suite of agricultural practices and crops that sequester carbon in the soil and in above ground biomass Combined with a massive reduction in fossil fuel emissions and in concert with adaptation strategies to our changing environment carbon farming has the potential to bring us back from the brink of disaster and return our atmosphere to the magic number of 350 parts per million of carbon dioxide Toensmeier s book is the first to bring together these powerful strategies in one place Includes in depth analysis of the available research Carbon farming can take many forms The simplest practices involve modifications to annual crop production Although many of these modifications have relatively low sequestration potential they are widely applicable and easily adopted and thus have excellent potential to mitigate climate change if practiced on a global scale Likewise grazing systems such as silvopasture are easily replicable don t require significant changes to human diet and given the amount of

agricultural land worldwide that is devoted to pasture can be important strategies in the carbon farming arsenal. But by far agroforestry practices and perennial crops present the best opportunities for sequestration. While many of these systems are challenging to establish and manage and would require us to change our diets to new and largely unfamiliar perennial crops, they also offer huge potential that has been almost entirely ignored by climate crusaders. Many of these carbon farming practices are already implemented globally on a scale of millions of hectares. These are not minor or marginal efforts but win-win solutions that provide food, fodder and feedstocks while fostering community self-reliance, creating jobs, protecting biodiversity and repairing degraded land, all while sequestering carbon, reducing emissions and ultimately contributing to a climate that will remain amenable to human civilization. Just as importantly to a livable future, these crops and practices can contribute to broader social goals such as women's empowerment, food sovereignty and climate justice. The Carbon Farming Solution is at its root a toolkit and the most complete collection of climate-friendly crops and practices currently available. With this toolkit, farmers, communities and governments large and small can successfully launch carbon farming projects with the most appropriate crops and practices to their climate locale and socioeconomic needs. Toensmeier's ultimate goal is to place carbon farming firmly in the center of the climate solutions platform alongside clean solar and wind energy. With The Carbon Farming Solution, Toensmeier wants to change the discussion, impact policy decisions and steer mitigation funds to the research projects and people around the world who envision a future where agriculture becomes the protagonist in this fraught, urgent and unprecedented drama of our time. Citizens, farmers and funders will be inspired to use the tools presented in this important book to transform degraded lands around the world into productive carbon-storing landscapes. **A**

Practical Guide to Greener Theatre Ellen Jones, 2013-10-30. Protecting the environment should be a priority of every theatrical production, but it can be challenging to mount an environmentally friendly show with limited time, resources and information. *A Practical Guide to Greener Theatre: Introduce Sustainability Into Your Productions* not only gives you the information you need to make greener decisions but provides you with practical, workable solutions. You will learn how to assess and improve every production area from costuming and painting, lighting and technical direction to administrative offices and the rehearsal process. Checklists, examples of successful strategies and step-by-step instructions will show you how to identify areas where manageable, sustainable changes can make your productions greener, and advice from working professionals with experience greening their own productions will leave you confident that your processes are environmentally sound. Even non-technical people who find themselves responsible for supervising productions will find green solutions that can be instituted with a staff of volunteers or students. Remember, every step toward sustainability is a step forward. Discover small fixes that will make your theatre productions greener. Examine ways to introduce greener practices in the design, execution and strike process. Explore how introducing sustainability into your theatre productions can save your company time and money. Learn how sustainability and safety intersect to help protect your workers and volunteers.

Common Threads Sharon Kallis, 2014-11-01 A guide to creating community based art installations using green waste invasive species and natural materials Disposing of unwanted natural materials can be expensive and time consuming or it can present a tremendous opportunity for creating collaborative eco art Invasive species control green waste management urban gardening and traditional crafts can all be brought together to strengthen community relationships and foster responsible land stewardship Simple easily taught creative techniques applied with shared purpose become the modern day equivalent of a barn raising or a quilting bee Common Threads is a unique guide to engaging community members in communal handwork for the greater good Sharon Kallis provides a wealth of ideas for Working with unwanted natural materials with an emphasis on green waste and invasive species Visualizing projects that celebrate the human element while crafting works of art or environmental remediation Creating opportunities for individuals to connect with nature in a unique meditative yet community oriented way Combining detailed step by step instructions with tips for successful process and an overview of completed projects Common Threads is a different kind of weaving book This inspirational guide is designed to help artists and activists foster community build empowerment and develop a do it together attitude while planning and implementing works of collaborative eco art Sharon Kallis is a Vancouver artist who specializes in working with unwanted natural materials Involving community in connecting traditional hand techniques with invasive species and garden waste she creates site specific installations that become ecological interventions Her recent projects include The Urban Weaver Project Aberthau flax food fibre and working closely with fiber artists park ecologists First Nations basket weavers and others

Plant Craft Caitlin Atkinson, 2016-10-05 Discover the simple beauty of adding natural style to a space Not everyone has a garden but with only a handful of materials and a little bit of time everyone can bring the beauty of nature into their home Plant Craft features projects inspired by the natural world and made out of live plants cut flowers foraged branches and more You ll learn how to create a colorful floral mural an elegant table centerpiece a serene underwater sculpture a whimsical mobile and more The step by step instructions are clear easy to follow and fully illustrated with color photographs and the projects vary in difficulty Given the right care they all have the potential to grace a home for a long time The Handbook of Natural Plant Dyes Sasha Duerr, 2011-01-19 Through step by step instructions and color saturated photographs textile designer Sasha Duerr explains the basics of making and using natural plant dye from gathering materials and making the dyes to simple ideas for how to use them from publisher description **Was steckt in unserer Kleidung?** Rebecca Burgess, Courtney White, 2022-03-31 Dieses Buch wird klimapositiv hergestellt cradle to cradle gedruckt und bleibt plastikfrei unverpackt Was dein Pulli mit regenerativer Landwirtschaft zu tun hat Hast du dich auch mal gefragt wo deine Kleidung eigentlich herkommt Also nicht nur das fertige Teil sondern alle seine Bestandteile Die Rohstoffe aus denen es hergestellt wurde Die Farbe die es so besonders macht Und hast du dich gefragt wer es designt hat wer den Stoff webt der sich so weich auf deiner Haut anfühlt und wer die Einzelteile zu einem Ganzen verbindet Was das Verhältnis zu unserer Kleidung betrifft k

nnte man sagen Wir haben den Faden verloren Oder sogar noch schlimmer Die Beziehung zu unserer zweiten Haut ist leider toxisch Und das im wahrsten Sinne des Wortes Denn einerseits haben wir uns an Fast Fashion gewöhnt daran ständig neue Kleidung zu kaufen Andererseits sind die Inhaltsstoffe in konventioneller Kleidung tatsächlich giftig und schließlich nicht nur für unsere Umwelt sondern auch für die Menschen die sie herstellen und für die Konsument*innen die sie direkt auf ihrer Haut tragen Und das alles trägt noch dazu erheblich zur Klimakrise bei Die Modeindustrie ist heute für 10 % der menschengemachten Treibhausgas Emissionen verantwortlich mehr als der Flug und Schiffsverkehr zusammen Die Gemeinschaft zieht We're all connected Rebecca Burgess wollte Veränderung Sie wollte jeden Produktionsschritt in der Textilwirtschaft neu denken fairer und nachhaltiger gestalten und direkt vor ihrer Haustür in Nordkalifornien damit anfangen Und genau aus diesem Grund baute sie das Projekt Fibershed auf das Bauer*innen Farmer*innen Designer*innen und Hersteller*innen vernetzt In einem Fibershed also Fasereinzugsgebiet wird regional nachhaltig und umweltschonend Kleidung produziert die wieder vollständig in den biologischen Kreislauf rückgeführt werden kann Und mittlerweile gibt es schon über 45 Fibersheds weltweit Der rote Faden Gemeinsam gegen den Klimawandel In diesem Buch gibt uns Rebecca Burgess einen Einblick in die Textilwirtschaft Sie zeigt wie Kleidung und Stoffe produziert werden wie problematisch viele der Vorgänge dabei sind aber vor allem welche Alternativen es gibt Alternativen die die Textilwirtschaft von Grund auf ändern Rohstoffe und Faserpflanzen für Textilien werden in regenerativer Landwirtschaft also ohne Einsatz von Pestiziden und Kunstdüngern angebaut Und die Tiere von denen die Wolle stammt leben in artgerechter Haltung So kann sich der Boden regenerieren die Biodiversität wird gesteigert und der Wasserkreislauf belebt Verarbeitet werden die Rohstoffe möglichst regional unter fairen Arbeitsbedingungen Und am Ende des Kreislaufs steht nicht etwa ein Kleidungsstück das im Müll landet nein diese Stoffe können sogar kompostiert werden und finden so ihren Weg irgendwann wieder zurück in den Boden Eben soil to soil cradle to cradle nachhaltig und umweltschonend Beyond Fair Fashion Slow Fashion Die Non Profit Organisation Fibershed revolutioniert den gesamten Textilkreislauf und zwar von der Wurzel weg mit flauschiger Wolle Stoff aus Pflanzenfasern und natürlichen Farbstoffen von ökologisch angebauten Farmerpflanzen Für gesunde Boden robuste Pflanzen artgerecht gehaltene Tiere sowie faire und sichere Arbeitsbedingungen Für alle Vernetzung ist angesagt Fibersheds sind lebendige Systeme Bauer*innen Farmer*innen Hersteller*innen Modeaktivist*innen und Konsument*innen tun sich zusammen um einen nachhaltigen Textilkreislauf zu schaffen Deine zweite Haut aber wie gut kennst du sie eigentlich Finde heraus was in der Modeindustrie heute so schief läuft welche Inhaltsstoffe sich in deiner Kleidung verstecken und welche Möglichkeiten es gibt schon Natural Color Sasha Duerr, 2016-08-23 A beautiful book of seasonal projects for using the brilliant spectrum of colors derived from plants to naturally dye your clothing and home textiles Organized by season Natural Color is a beautifully photographed guide to the full range of plant dyes available drawn from commonly found fruits flowers trees and herbs with accompanying projects Using sustainable methods and artisanal techniques designer artist and professor Sasha

Duerr details achievable ways to apply these limitless color possibilities to your home and wardrobe. Whether you are new to dyeing or more practiced, Duerr's clear and simple ingredients lists, step-by-step instructions, and detailed breakouts on techniques such as shibori, dip dye, and block printing will ensure beautiful results. With recipes to dye everything from dresses and sweaters to rugs and napkins, *Natural Color* will inspire fashion enthusiasts, home decorators, textile lovers, and everyone else who wants to bring more color into their life.
