**Cruel Harvest** Julien Mercille,2012-12-09 This book lifts the lid on the reality of Afghanistan s growing drug trade and the role played by the US military in its trajectory Where conventional accounts blame the Taliban for the expansion of drug production Cruel Harvest shows that the US shares responsibility by supporting drug lords refusing to adopt effective drug control policies and failing to crack down on drug money laundered through Western banks Julien Mercille argues that the best way to address drug problems is by reducing demand in consumer countries not by conducting fruitless and damaging counter narcotics missions in Afghanistan Encyclopedia of Forensic Science, Third Edition

**Cannabis Britannica** James H. Mills,2003-09-11 Cannabis Britannica explores the historical origins of the UK s legislation and regulations on cannabis preparations before 1928 It draws on published and unpublished sources from the seventeenth century onwards from archives in the UK and India to show how the history of cannabis and the British before the twentieth century was bound up with imperialism James Mills argues that until the 1900s most of the information and experience gathered by British sources were drawn from colonial contexts as imperial administrators governed and observed populations where use of cannabis was extensive and established This is most obvious

in the 1890s when British anti opium campaigners in the House of Commons seized on the issue of Government of India excise duties on the cannabis trade in Asia in order to open up another front in their attacks on imperial administration The result was that cannabis preparations became a matter of concern in Parliament which accordingly established the Indian Hemp Drugs Commission The story in the twentieth century is of the momentum behind moves to include cannabis substances in domestic law and in international treaties The latter was a matter of the diplomatic politics of imperialism as Britain sought to defend its cannabis revenues in India against American and Egyptian interests The domestic story focuses on the coming together of the police the media and the pharmaceutical industry to form misunderstandings of cannabis that forced it onto the Poisons Schedule despite the misgivings of the Home Office and of key medical professionals The book is the first full history of the origins of the moments when cannabis first became subjected to laws and regulations in Britain

*Drugging France* Sara E. Black, 2022-09-15 In the nineteenth century drug consumption permeated French society to produce a new norm the chemical enhancement of modern life French citizens empowered themselves by seeking pharmaceutical relief for their suffering and engaging in self medication Doctors and pharmacists meanwhile fashioned themselves as gatekeepers to these potent drugs claiming that their expertise could shield the public from accidental harm Despite these efforts the unanticipated phenomenon of addiction laid bare both the embodied nature of the modern self and the inherent instability of the notions of individual free will and responsibility *Drugging France* explores the history of mind altering drugs in medical practice between 1840 and 1920 highlighting the intricate medical histories of opium morphine ether chloroform cocaine and hashish While most drug histories focus on how drugs became regulated and criminalized as dangerous addictive substances Sara Black instead traces the spread of these drugs through French society demonstrating

how new therapeutic norms and practices of drug consumption transformed the lives of French citizens as they came to expect and even demand pharmaceutical solutions to their pain Through self experimentation doctors developed new knowledge about these drugs transforming exotic botanical substances and unpredictable chemicals into reliable pharmaceutical commodities that would act on the mind and body to modify pain sensation and consciousness From the pharmacy counter to the boudoir from the courtroom to the operating theatre from the battlefield to the birthing chamber *Drugging France* explores how everyday encounters with drugs reconfigured how people experienced their own minds and bodies
