Graphic Japan Natalie Avella, 2004 From the kitsch cuteness of Hello Kitty to the cult of manga and anime Japanese design has long paved the way for the West to follow Graphic Japan goes beyond this well known territory to reveal the myriad styles of design produced in Japan today from packaging to posters and typography to new media Contemporary Japanese graphic design is a unique collision of traditional cultural influences and a focused thrust toward modernization on global terms and the book reflects this marriage of tradition and hypermodernity Essays on today's innovators are beautifully printed in a simple elegant manner that is typical of traditional Japanese work and are combined with bold and colorful visual material which reflects the brash global commerciality of much new material This book is an inspirational must for designers in the West

Japan Graphics Tomoko Sakamoto, Ramon Prat, 2002 Jpg a tidy twist of letters that refers to both Japanese graphic design and that ubiquitous form of digital image transmission the jpeg Here is the youngest generation of graphic designers in Japan a motley formidable group whose work reflects a remix of influences from the West and appropriations of local cultural expressions JPg is about 3D and computer graphics but also about other fields of visual culture from printed matter to consumer goods to contemporary art Organized around three poetically conceived categories Scanning the World Multiplying Out and Free to Browse JPg acknowledges that design is everywhere It is our space our environment and our experiences of the world it is the media it is the packaged and prepared food we eat it is the cell phone we hold to our ear JPg asks where all this design comes from where it goes and how we experience it but in a specifically Japanese context with all its possibilities for a more global application

Japanese Modern James Howard Fraser, Steven Heller, Seymour Chwast, 1996 Heavily influenced by Western styles and fashions of the 20s and 30s Japanese graphic designers drew inspiration from Europe's master artists and typographers enthusiastically importing and assimilating elements of Bauhaus Constructivism and Futurism With striking illustrations of posters brochures and match box labels and more this singular volume offers a scintillating look at modern Japanese graphic design
