tomb At the critical moment Ma Xiaobolo wanted to look for a way to escape in the parchment book The mysterious power of the parchment book took them shuttling through various tombs in history and they witnessed magnificent historical scenes and splendid historical time and space one after another *Drones in Society* Elisa Serafinelli, 2024-06-24 This book explores the evolving world of drones through a multifaceted lens revealing their profound impact on society and visual culture The comprehensive collection bridges the gap between technology and aesthetics dissecting the transformative role drones play in various domains from cinema and art to surveillance and environmental sensing Each chapter penned by leading scholars explores the unique ways drones are redefining our visual landscape whether in capturing unprecedented cinematic shots aiding in critical rescue missions or offering new perspectives in artistic endeavours The book is an essential read for academics professionals and enthusiasts alike and is a key resource for anyone seeking to comprehend the full spectrum of drone capabilities and their implications for the future of visual communication and technology Chapter 2 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com *Bugged Talent: Slaying My Way To The Top* Brooke Shults, Gu Mingyuan transmigrated into a dark abyssal world and became the son of a fallen War God He was about to fulfill a marriage pact made by their fathers eighteen years ago to marry the beloved daughter of the mighty Tianlei War God Mansion However she scorned him as a useless cripple and kicked him out without hesitation Fortunately Gu Mingyuan awakened a bug level dual talent not only could he see his opponents exact HP and weaknesses but after killing them he could convert their abilities into powerful stat boosts From that moment on in this world teeming with alien races and abyssal beasts a brutal tyrant rose from the lowest ranks his methods ruthless and decisive slicing his way through dungeon realms and secret territories Some said Gu Mingyuan was too vicious his damage dealt was 99,999 in a single strike Others argued it was because he struck right at the enemy's weak spot But one thing everyone agreed on That young man named Gu was terrifyingly strong No one present dared deny it *Encountering Material Culture Through Archaeological Fiction* Kerry Dodd, 2024-12-12 Investigating the representation of artefacts objects and things in a range of predominantly Western archaeological fiction from the late Victorian period to the modern day this book examines the narratives through which humanity represents its own material heritage in relation to notions of enchantment exhibition estrangement adventure tourism and waste Kerry Dodd asserts that comprehending the structures through which material culture is presented within archaeological media reveals the structures that transform an object from rubbish to relic Calling upon such indicative literature films TV series and video games as *Tomb Raider* *Indiana Jones* *Uncharted* and *Relic Hunter* this book explores the depiction of material culture through three principal areas relics exhibition and adventure Outlining a critical framework of artefact representation Dodd argues that such iconic moments as Howard Carter's remark that he saw wonderful things when he broke into the antechamber of Tutankhamun's tomb remain recognisable through the evocation of a spectacular visual despite little concrete definition of the objects witnessed This book offers a

unique exploration of how such figures as Indiana Jones Lara Croft and Carter have cemented a cultural recognition of what an artefact constitutes as being dependent on how an object is encountered It is through the very wonder of things that Dodd breaks down the boundaries between popular and professional archaeology by pushing forward critical considerations of material culture
