the world In 1962 Barker published Bender's own book *Flying Saucers and the Three Men* which also elicited an excited response from saucer enthusiasts Controversy also ensued as opinion became divided into different camps ranging from those who believed Bender's account completely to those who thought he had concocted the story for psy ops purposes Later that same year in an effort to come to some sort of conclusion about Bender's claims Barker collected correspondence from Saucerian subscribers into this book *Bender Mystery Confirmed* By reading these letters one can examine the different theories about Bender and come to one's own conclusion As the title infers Barker came to believe that Bender was telling the absolute truth Whatever Bender's original intentions he had stumbled onto the real paranormal phenomena underpinning the UFO experience and had paid a price for it This special 2014 reprint features Barker's original full color cover design which was impossible to print at the time due to high printing costs The interior is an exact facsimile of the original which had become so scarce that only a handful of copies were known to exist prior to this republication Get it while you can
