Backlash Bradley Jardine, Edward Lemon, 2025-09-07 Central

Asia is at the forefront of China's efforts to assert itself as a major world power. Since 1991, Beijing has emerged as the region's main investor, creditor, and trade partner, as well as an increasingly important security provider. But its growing influence has met opposition in recent years; anti-China protests have erupted across Central Asia, threatening Beijing's shaky regional hegemony. Bradley Jardine and Edward Lemon examine how Central Asians are pushing back against China's global ambitions and trace Beijing's attempts to manage its image and secure its interests in response. Drawing on over a decade of fieldwork, *Backlash* reveals the uncertainties of China's rise. Far from being the omnipotent strategist often depicted in international media, Beijing is making significant missteps, alienating local people and becoming entangled in costly interventions to protect its citizens and investments. Russia's full-scale invasion of Ukraine in 2022 undermined Moscow's regional position, creating opportunities for China to expand its role. But to do so, it must contend with the agency of Central Asians themselves, their interests, policies, and priorities. This incisive book exposes the unravelling of China's alternative to the American-led global order, highlighting both elite and grassroots actors forcing Beijing to adapt its approach.

Theorizing Central Asian Politics Rico Isaacs, Alessandro Frigerio, 2018-10-26 This book brings together a series of innovative contributions which provide an eclectic view of how theorizing politics plays out in Central Asia. How are the concepts of governance, legitimacy, ideology, power, order, and the state framed in the region? How can we use the experiences of the Central Asian states to renovate political theorizing? In addressing these questions, the volume relies on the contributions of many young and local researchers whose chapters are primed to address three key themes: exploring models of governance, revealing ideological justifications, and reframing state and order. Utilizing a range of single and comparative case studies from across the Central Asian space, this illuminating and original volume opens up a new space for political theorists, regional specialists, and students of politics to begin reconsidering how we approach the theorization of regions of the world assumed to be on the periphery. *Different Approaches on Central Asia* Sahibzada Muhammad

Usman, 2023-04-04 This book explains the multiple perspectives of Central Asia or Eurasia as it relates to the economic, security, and energy fields. Sahibzada Muhammad Usman clarifies the influence of America, Russia, Europe, and China on Eurasian countries. Central Asia consists of five former Soviet nations: Uzbekistan, Turkmenistan, Tajikistan, Kyrgyzstan, and Kazakhstan. Eurasia and international players' current association depends on geographic, political, economic, and security factors. Eurasia or Central Asia sits at the center of the Asian continent, a region rich in history and culture. This region benefits from a mixture of national identities that have been developed carefully for many centuries. *US Policies in Central Asia* Ilya Levine, 2016-06-10 Democracy, promotion, security, and energy are the predominant themes of US policy in Central Asia after the Cold War. This book analyses how the Bush administration understood and pursued its interests in the Central Asian states, namely Kyrgyzstan, Tajikistan, Kazakhstan, Uzbekistan, Turkmenistan. It discusses the shift in US interests after September 11 and highlights key ideas, actors, and processes that have been driving US policy in Central Asia. The

author examines the similarities between the Bush and Obama administrations attitudes towards the region and he points to the inadequacy of the personality focused partisan accounts that have all too often been deployed to describe the two presidential administrations To understand US Central Asian policy it is necessary to appreciate the factors behind its continuities as well as the legacies of the September 11 attacks Using case studies on the war on terror energy and democracy drawing on personal interviews with Americans and Central Asians as well as the fairly recent releases of declassified and leaked US Government documents via sources like the Rumsfeld Papers and Wikileaks the author argues that the US approached Central Asia as a non unitary state with an ambiguous hierarchy of interests Traditionally domestic issues could be internationalised and non state actors were able to play significant roles The actual relationships between its interests were neither as harmonious nor as conflicted as the administration and some of its critics claimed Shedding new light on US relations with Central Asia this book is of interest to scholars of Central Asia US Politics and International Relations
