Great Sky River Galactic Center 3

Janet Husband, Jonathan F. Husband

Great Sky River Galactic Center 3:

Great Sky River Gregory Benford, 1988 The third novel in the award winning author's classic Galactic Center series is available once again A challenging pacesetter work of hard science fiction that should not be missed Los Angeles Times

Great Sky River Gregory Benford, 2024-09-24 The third novel in the Nebula Award winning author's classic series A challenging pacesetter work of hard science fiction that should not be missed Los Angeles Times Nearly 100 000 years after first contact with the machines that dominate the universe a few hundred humans survive Trapped on Snowglade a barren world near the center of the galaxy people like Killeen of Family Bishop and his child Toby are primitive scavengers homeless and hunted by the ruling mechs Then suddenly a strange cosmic entity neither organic nor cybernetic nor living matter reaches out from a black hole to speak with Killeen But can this fallen descendant of starfarers understand this alien being in time and seize the only chance to save his family and mankind from final annihilation In the Ocean of Night Gregory Benford, 2024-09-24 From a Nebula award winning author a classic hard sci fi fantasy of a maverick astronaut who goes against NASA's command when he discovers alien artifacts 2034 An indistinguishable sound is heard from the depths of space and one member of the search and survey team Nigel believes he knows its origins Fifteen years earlier he was the astronaut sent to implode a fiery comet as it hurtled toward the Asian subcontinent Once inside the fissure he made an unlikely discovery an abandoned alien ship Against his better judgment Nigel carried out his mission destroying the vessel but not before clandestinely removing alien data and technology from on board Now as the team sets forth on a new adventure of discovery Nigel's past will collide with the present introducing him to wonders beyond human comprehension

The Berlin Project Gregory Benford, 2017-05-09 A fictional alternate history of the creation of the atom bomb that explores what could have happened if the bomb was ready to be used by June 6 1944 **Analog Science Fiction & Fact**, 2004 *Sequels* Janet G. Husband, Jonathan F. Husband, 2009 A guide to series fiction lists popular series identifies novels by character and offers guidance on the order in which to read unnumbered series *Gregory Benford* George Slusser, 2014-02-28 Gregory Benford is perhaps best known as the author of Benford's law of controversy Passion is inversely proportional to the amount of real information available That maxim is a quotation from Timescape Benford's Nebula and Campbell Award winning 1980 novel which established his work as an exemplar of hard science fiction dedicated to working out the consequences of modern science rather than substituting pseudoscience for fantasy Like many other current science fiction writers Benford has tackled the major genres space travel time travel technology running amok prolonged longevity searing apocalyptic cosmic events and alien life which he theorizes to be more likely viral than intelligent An astrophysicist by training and profession Benford has published more than twenty novels over one hundred short stories some fifty essays and myriad articles that display both his scientific rigor as well as a recognition of literary traditions In this study George Slusser explores the extraordinary seemingly inexhaustible display of creative energy in Gregory Benford's life and work

Presenting Benford's ideas on science and the writing of science fiction the volume addresses the writer's literary production and his place in contemporary science fiction By identifying direct sources and making parallels with other works and writers Slusser reveals the vast scope of Benford's knowledge both of literature and of the major scientific and philosophical issues of our time Slusser also discusses Benford's numerous scientific articles and nonfiction books and includes a new interview with Benford

Space and Beyond Gary Westfahl, 2000-01-30 Although the exploration of space has long preoccupied authors and filmmakers the development of an actual space program discoveries about the true nature of space and critical reconsiderations of America's frontier experiences have challenged and complicated conventional portrayals of humans in space This volume reexamines the themes of space and the frontier in science fiction in light of recent scientific and literary developments From this new perspective we discern previously unnoticed commentaries from older authors while newer writers either remain within a reassuring but obsolete tradition venture into unexplored new realities or abandon space to focus on other frontiers The intriguing contributions to this volume include a previously unpublished interview with Arthur C Clarke the world's greatest living author of science fiction examinations of space opera by veteran author Jack Williamson and scholar David Pringle surveys of space in science fiction film and writer and producer Michael Cassutt's account of his efforts to launch a film based on a Clifford D Simak novel and speculations about future developments from noted writers Gregory Benford Jack Dann James Gunn and Howard V Hendrix
