**RESEARCH AND DEVELOPMENT, NEW PRODUCTS**  
 Research is being conducted by the Department of Agriculture, Bureau of Entomology and Plant Quarantine, to determine the effect of various insecticides on the control of the pest. The results of the research will be published in the near future.

**Abstract.** *Staphylococcus aureus* is a common skin pathogen. The purpose of this study was to determine the prevalence of *S. aureus* in the nasal cavity of healthy children and to determine the effect of antibiotic use on the prevalence of *S. aureus*. The study was conducted in a tertiary care hospital. A total of 100 children, aged 1 to 12 years, were enrolled in the study. The children were divided into two groups: 50 children who had not received any antibiotics in the last 4 weeks and 50 children who had received antibiotics in the last 4 weeks. The prevalence of *S. aureus* in the nasal cavity was determined by culture of nasal swabs. The prevalence of *S. aureus* was significantly higher in the children who had received antibiotics in the last 4 weeks (80%) compared to the children who had not received antibiotics (40%). The results of this study suggest that the use of antibiotics may increase the prevalence of *S. aureus* in the nasal cavity of healthy children.

It is, however, not clear how the findings of this study can be applied to the general population. The study was conducted in a specific population, and the results may not be generalizable to other populations. Further research is needed to determine the applicability of these findings to other populations.

There is a growing awareness of the need for a more integrated approach to the study of the environment. This is reflected in the increasing number of interdisciplinary studies in the field of environmental science. The study of the environment is no longer confined to the natural sciences, but now includes the social sciences, the humanities, and the arts. This interdisciplinary approach is essential for a comprehensive understanding of the environment and its impact on human society.
