Greek Civil War The Origins Of Modern Wars

David H. Close

Greek Civil War The Origins Of Modern Wars:

The Origins of the Greek Civil War David H. Close,1995 Spanning the transition from World War to Cold War it offers a case study of the tensions played out across the ethnic and cultural faultlines of Europe at that time and how the major powers used them for their own ends *The Greek Civil War* David H. Close,2014-01-14 The Greek Civil War 1943-50 was a major conflict in its own right developing out of the rivalry between communist and conservative partisans for control of Greece as the Axis forces retreated at the end of the Second World War Spanning the transition from World War to Cold War it also had major international consequences in keeping Greece alone of all the Balkan nations out of the Communist bloc and stopping the Soviets reaching the Mediterranean Yet it has received less attention than it deserves from historians In this striking and original study David Close does justice to both the domestic context of the conflict and also to its international significance **The Greek Civil War** David H. Close,2014-01-14 The Greek Civil War 1943-50 was a major conflict in its

own right developing out of the rivalry between communist and conservative partisans for control of Greece as the Axis forces retreated at the end of the Second World War Spanning the transition from World War to Cold War it also had major international consequences in keeping Greece alone of all the Balkan nations out of the Communist bloc and stopping the Soviets reaching the Mediterranean Yet it has received less attention than it deserves from historians In this striking and original study David Close does justice to both the domestic context of the conflict and also to its international significance

The Origins of the American Civil War Brian Holden Reid,2014-09-25 The American Civil War 1861-65 was the bloodiest war of the nineteenth century and its impact continues to be felt today It and its origins have been studied more intensively than any other period in American history yet it remains profoundly controversial Brian Holden Reid's formidable volume is a major contribution to this ongoing historical debate Based on a wealth of primary research it examines every aspect of the origins of the conflict and addresses key questions such as was it an avoidable tragedy or a necessary catharsis for a divided nation How far was slavery the central issue Why should the conflict have erupted into violence and why did it not escalate into world war *The Origins of the Russian Civil War* Geoffrey Swain,2013-11-26 Concentrating on the turbulent months from February 1917 to November 1918 Geoffrey Swain explores the origins of the Civil War against the wider background of revolutionary Russia He examines the aims of the anti-Bolshevik insurgents themselves but he also shows how far the fear of civil war governed the action of the Provisional Government and even the plans of the Bolsheviks If the war itself can seem a fairly straightforward line up of revolutionaries and counter revolutionaries this study reveals how complex were the motives of the people who precipitated it *The Origins of the Second World War in Asia and the Pacific* Akira Iriye,2014-06-06 Professor Iriye analyses the origins of the 1941 conflict against the background of international relations in the preceding decade in order to answer the key question Why did Japan decide to go to war against so formidable a combination of powers

The Origins of the Second World War in Europe P. M. H. Bell,2014-09-11 PMH Bell's famous book is a comprehensive

The Origins of the Second World War in Europe P. M. H. Bell,2014-09-11 PMH Bell's famous book is a comprehensive

study of the period and debates surrounding the European origins of the Second World War He approaches the subject from three different angles describing the various explanations that have been offered for the war and the historiographical debates that have arisen from them analysing the ideological economic and strategic forces at work in Europe during the 1930s and tracing the course of events from peace in 1932 via the initial outbreak of hostilities in 1939 through to the climactic German attack on the Soviet Union in 1941 which marked the descent into general conflict Written in a lucid accessible style this is an indispensable guide to the complex origins of the Second World War *The Balkans Since the Second World War* R. J. Crampton, 2014-07-15 Since the collapse of Eastern European communism the Balkans have been more prominent in world affairs than at any time since before the First World War Crises in the area have led NATO to fire its first ever shots in anger whilst international forces have been deployed on a scale and in a manner unprecedented in Europe since World War Two An understanding of why this happened is impossible without some knowledge of the history of the area before the fall of communism of how the communists came to power and how they used their authority thereafter Covering the communist states of Albania Bulgaria Romania and Yugoslavia and including Greece Richard Crampton provides a highly readable introduction to that history one that will be read by journalists diplomats and anyone interested in the region and its impact on world politics today

The Origins of the Korean War Peter Lowe, 2014-07-30 The impressive Second Edition of this standard study incorporates important new evidence on the origins of the war from Chinese and Russian archives It reveals that Stalin encouraged the attack on South Korea but also confirms that the original initiative came from North Korea Peter Lowe has also written an extended conclusion with a discussion of the Koreans in the late 1990s and the challenges involved in securing their reunification

The Origins of the Russo-Japanese War Ian Nish, 2014-09-25 The Russo Japanese war of 1904-5 has been seen as the turning point of the development of the modern world Written by a specialist in Japanese diplomacy this book has been described by the Times Higher Education Supplement as diplomatic history at its very best

The United States and the World Andrzej Mania, Łukasz Wordliczek, 2010-01-15 The conference The United States and the World from Imitation to Challenge was meant to gather those interested in various aspects of the mutual connections between the United States and the world It concentrated on the problem of the model of American democracy the presidential system American politics American society American culture and the world s reflections about them from imitation to challenge For this there was an invitation to scholars from many research fields political science philosophy law culture studies economy and sociology It was a result of our vision of American Studies as an interdisciplinary effort And so thanks to the rich and diverse approaches of the participants our vision turned out to be true The effect of the conference is reflected in the contributions that follow in this volume and in the rich interdisciplinary debate over the American impact on the world integration in Pax Americana and patterns of integration in other parts of the world different and or similar approaches to challenges to international order and last but not least the issue of continuity and

change in politics Here one also needs to mention the ever present debate on the American export of values separation of church and state human rights the idea of sovereignty the rule of separation of powers modern federalism democratization approaches Americanism American Studies dilemmas American exceptionalism uniqueness in contemporary American society and patterns in foreign policy **The Origins of the Present Troubles in Northern Ireland** Caroline

Kennedy-Pipe,2014-07-15 For quarter of a century now the British Army has been involved in a bloody and protracted conflict in Northern Ireland This book looks at the roots of the current struggle and of British military intervention setting both in the longer perspective of the Anglo Irish Troubles It is however more than a chronicle of military strategies and sectarian strife it seeks to place the use of the army within the context of the wider British experience of dealing with political violence and to address the broader issue of how democratic states have responded to both ethnic conflict and the threat of internal disorder

1995 Massimo Mastrogregori,2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors **The Origins of the First World War** James

Joll,Gordon Martel,2022-08-02 This thoroughly revised edition has been updated to incorporate recent case studies biographies syntheses journal articles and scholarly conferences that appeared in conjunction with the centenary of the outbreak of the First World War in 2014 The original version of this work published by James Joll in 1984 quickly became established as the authoritative introduction to the subject of the war s origins Significantly expanded by Gordon Martel in 2007 this volume continues to offer a careful clear and comprehensive evaluation of the multitude of explanations advanced to explain the causes of the cataclysm of 1914 addressing each of the major interpretive approaches to the subject with essay like chapters addressing the alliance system militarism and strategy the international economy imperial rivalries the role of domestic politics and the mood of 1914 This edition offers an extensive new introduction a new conclusion including ten fateful choices that led to war an entirely new chapter on the July Crisis and a vastly expanded Guide to Further Reading Covering over a century of controversy and scholarship The Origins of the First World War is a valuable resource for all students and scholars interested in this major conflict The Macedonian Slavs in the Greek Civil War, 1944-1949 James

Horncastle,2019-06-03 In this study of Macedonian Slavs in the Greek Civil War the author examines how their participation in the conflict and the attempts by other groups to manipulate them gave rise to modern issues that continue to affect politics in the region today The Macedonian Question has confounded academics politicians and the people of the Balkans since the nineteenth century While the countries have resolved the territorial component of the Macedonian Question the critical and confusing question surrounding the ethnic and linguistic identity of the people of the region continues to be the source of

international debate Part of the reason for this confusion is because the history of the Macedonian Question is shrouded in nationalist polemics The role of the Macedonian Slavs involvement in the Greek Civil War is particularly contentious and embedded in nationalist polemics which has impacted academic inquiry This book argues that the preponderance of Macedonian Slavs within the communist forces during the Greek Civil War influenced the actions of all the major actors involved and is a significant factor in shaping the modern Macedonian national identity

The Origins of the Second World War in Europe Philip Michael Hett Bell, 1997 This addition to Longman's Origins of Modern Wars series traces the course of events that led to the Second World War in Europe from 1932 through to Germany's invasion of Russia in 1941

The Greek Civil War Spyridon Plakoudas, 2017-05-15 The Greek Civil War 1946-1949 was one of the few instances in the post World War II era of a clear cut and permanent victory by right wing government forces over an insurgent communist movement Spyridon Plakoudas here explores the factors which ultimately caused the downfall of the communist insurgency in Greece which had at some points seemed undefeatable He questions whether the guerrilla movement fell victim to the feud between Stalin and Tito or whether the significant British and above all American aid in fact rescued the Greek monarchist regime from collapse Plakoudas explores the strategies adopted by government forces in order to counter the communist insurgency how external and internal actors influenced these policies and when how and why these policies achieved success Featuring previously unseen sources and documents this book reveals the strategy and tactics of the monarchist regime

Journal of the Hellenic Diaspora, 1996 The Origins of the South African War, 1899-1902 Iain R. Smith, 1996 Iain Smith's impressive reappraisal of the origins of what used to be known as the Anglo Boer War is based on extensive work in the British and South African archives While paying due attention to the roots of the conflict in the pattern of European conquest and settlement in South Africa he concentrates particularly on the transformations that resulted from the discovery of gold in the Transvaal during the high noon of British imperialism and the scramble for Africa The mounting conflict of interests between Britain and what had been a poor Boer republic makes a dramatic story with a cast of powerful personalities that includes Rhodes Chamberlain Kruger Smuts and Milner Iain Smith does it and them full justice in this authoritative and enthralling account of one of the climatic moments in South African and British imperial history

The Oxford Handbook of European History, 1914-1945 Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a

compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today

Thank you very much for downloading **Greek Civil War The Origins Of Modern Wars**. As you may know, people have search numerous times for their favorite novels like this Greek Civil War The Origins Of Modern Wars, but end up in infectious downloads.
