Greek And Roman Mosaics:

Mosaics of the Greek and Roman World Katherine M. D. Dunbabin, 1999 This book provides a comprehensive account of mosaics in the ancient world from the early pebble mosaics of Greece to the pavements of Christian churches in the East Separate chapters in Part I cover the principal regions of the Roman Empire in turn in order to bring out the distinctive characteristics of their mosaic workshops Questions of technique and production of the role of mosaics in architecture and of their social functions and implications are treated in Part II The book discusses both well known works and recent finds and balances consideration of exceptional masterpieces against standard workshop production Two main lines of approach are followed throughout first the role of mosaics as a significant art form which over an unbroken span illuminates the evolution of pictorial style better than any comparable surviving medium and secondly their character as works of artisan production closely linked to their architectural context

Greek and Roman Mosaics Umberto Pappalardo, 2019-09-17 The best illustrated survey of a spectacular ancient art now available in an affordable edition Mosaic has been called painting for eternity and it is in fact one of the few arts of antiquity to survive in something like its original condition and variety Mosaic pavements with geometric and figural motifs first appeared in Greece at the end of the fifth century BC and subsequently spread throughout the classical world from the palaces of emperors and kings to even relatively modest private homes Across the Mediterranean local workshops cultivated many distinctive regional styles while traveling teams of Hellenistic craftsmen produced figural mosaics of stunning refinement often modeled after famous paintings indeed their work constitutes one of our only records of classical Greek painting which has been almost entirely lost The styles and techniques of the ancient mosaicist s art are given a concise yet authoritative exposition in the first part of this handsome volume The second and larger part conducts the reader on a chronologically ordered tour of the most important centers of the art form s development from the Macedonian capital of Pella whose compositions in natural pebbles set a high artistic standard for mosaics at the beginning of their history to the Basilica of San Vitale at Ravenna whose wall and vault mosaics with their glittering vision of a triumphant Christianity mark the transition between antiquity and the Middle Ages Special attention is given to Pompeii and its surroundings where the eruption of Mount Vesuvius in AD 79 preserved intact an astonishing variety of mosaics including such ambitious figural scenes as the famous Alexander Mosaic composed of some four million miniscule tesserae as well as characteristically Roman pavements in black and white and the brightly colored wall mosaics of garden grottoes Featuring more than 230 vibrant photographs many newly commissioned Greek and Roman Mosaics is the first survey of its subject to be illustrated in full color It will be an essential visual reference for every student of classical antiquity and a source of considerable delight for art lovers

The Mosaics of Alexandria Anne-Marie Guimier-Sorbets, 2021-10 A beautifully illustrated study of mosaic art in Greco Roman Egypt The art of the mosaic was developed by the Greeks notably within the royal court of Macedonia and was initially unknown to the Egyptians Macedonian

mosaicists then established busy workshops in the capital Alexandria and in the new towns of Greek Egypt Under the stimulus of commissions from the Ptolemaic court these workshops soon showed that they were capable of innovation Beginning with pebbles they then used tesserae of different sizes and adopted new materials glass faience paint in order to transpose onto the floor images from grand paintings which was the major art form of the time and was characterized by the vivid use of color Alexandrian mosaicists were at the forefront of creativity during the Hellenistic period and their influence spread around the Mediterranean After the Roman conquest of Egypt they adapted to the tastes of their new sponsors and to changes in architecture and were able to retain an important place within this art as it developed across the entire empire in Rome and from east to west The Mosaics of Alexandria provides the first overview of the mosaics and pavements of Egypt that were created between the end of the fourth century BC and the sixth century AD It presents a selection of some seventy mosaics and pavements from Alexandria and Greco Roman Egypt Generally little known and more often than not unpublished these works are illustrated here in full color some for the first time The aim is to better understand the artistic and artisanal production of a type of decoration that played an important role within the living environment of the ancients

Greek and Roman Mosaics Umberto Pappalardo, Rosaria Ciardiello, 2012 Greek and Roman Mosaics is a masterly overview of the rich and varied ancient art of mosaic In the first part of this handsome volume the styles and techniques of the ancient mosaicist's art are given a concise yet authoritative exposition The second and larger part conducts the reader on a chronological tour of the most important centers of the art form's development Featuring more than two hundred newly commissioned photographs Greek and Roman Mosaics is the first survey of its subject to be illustrated in full color
