pleasure quarters are just some of the elements that constitute Han Bangqing's extraordinary novel of late imperial China. Han's richly textured panoramic view of late nineteenth century Shanghai follows a range of characters from beautiful sing song girls to lower class prostitutes and from men in positions of social authority to criminals and ambitious young men recently arrived from the country. Considered one of the greatest works of Chinese fiction, *The Sing song Girls of Shanghai* is now available for the first time in English. Neither sentimental nor sensationalistic in its portrayal of courtesans and their male patrons, Han's work inquires into the moral and psychological consequences of desire. Han himself, a frequent habitué of Shanghai brothels, reveals a world populated by lonely souls who seek consolation amid the pleasures and decadence of Shanghai's demimonde. He describes the romantic games played by sing song girls to lure men as well as the tragic consequences faced by those who unexpectedly fall in love with their customers. Han also tells the stories of male patrons who find themselves emotionally trapped between desire and their sense of propriety. First published in 1892 and made into a film by Hou Hsiao hsien in 1998, *The Sing song Girls of Shanghai* is recognized as a pioneering work of Chinese fiction in its use of psychological realism and its infusion of modernist sensibilities into the traditional genre of courtesan fiction. The novel's stature has grown with the recent discovery of Eileen Chang's previously unknown translation, which was unearthed among her papers at the University of Southern California. Chang, who lived in Shanghai until 1956 when she moved to California and began to write in English, is one of the most acclaimed Chinese writers of the twentieth century. *The W.B.A. Review*, 1924. *Burke's Weekly for Boys and Girls*, 1868. Media Messages Linda Holtzman, Leon Sharpe, 2014-12-18. The new edition of this widely adopted book reveals how the popular media contribute to widespread myths and misunderstanding about cultural diversity. While focused on the impact of television, feature film, and popular music, the authors reach far beyond media to explore how our understanding, values, and beliefs about race, class, gender, and sexual orientation are constructed. They analyze how personal histories combined with the collective history of oppression and liberation contribute to stereotypes and misinformation as well as how personal engagement with media can impact prospects for individual and social freedom. Along with updated media examples, expanded theories, and analysis, this edition explores even more deeply the coverage of race in two chapters, discusses more broadly how men and boys are depicted in the media, and socialized, and how class issues have become even more visible since the Great Recession of the 21st century and the Occupy movements. Special activities and exercises are provided in the book, and an online Instructor's Manual is available to adopters.
