

Presentation of Financial Statements

This revised International Accounting Standard supersedes IAS 1, *Disclosure of Accounting Policies*, IAS 5, *Information to be Disclosed in Financial Statements*, and IAS 13, *Presentation of Current Assets and Current Liabilities*, which were approved by the Board in reformatted versions in 1994. IAS 1 (revised 1997) was approved by the IASB Board in July 1997 and became effective for financial statements covering periods beginning on or after 1 July 1998.

In May 1999, IAS 10 (revised 1999), *Events After the Balance Sheet Date*, amended paragraphs 85(a), 64, 65(a) and 74(c). The amended text becomes effective when IAS 10 (revised 1999) becomes effective – i.e., for annual financial statements covering periods beginning on or after 1 January 2000.

The following SIC Interpretations relate to IAS 1:

- SIC-8, *First-Time Application of IASs as the Primary Basis of Accounting*.
- SIC-18, *Consistency – Alternative Methods*.
- SIC-27, *Evaluating the Substance of Transactions in the Legal Form of a Lease*.
- SIC-29, *Disclosure – Service Concession Arrangements*.

IAS 1 (revised 1997)

Introduction

1. This Standard ('IAS 1 (revised 1997)') replaces International Accounting Standards IAS 1, *Disclosure of Accounting Policies*, IAS 5, *Information to be Disclosed in Financial Statements*, and IAS 13, *Presentation of Current Assets and Current Liabilities*. IAS 1 (revised) is effective for accounting periods beginning on or after 1 July 1998 although, because the requirements are consistent with those in existing Standards, earlier application is encouraged.
2. The Standard updates the requirements in the Standards it replaces, consistent with the IASB Framework for the Preparation and Presentation of Financial Statements. In addition, it is designed to improve the quality of financial statements presented using International Accounting Standards by:
 - (a) ensuring that financial statements that state compliance with IAS comply with each applicable Standard, including all disclosure requirements;
 - (b) ensuring that departures from IAS requirements are restricted to extremely rare cases (instances of non-compliance will be monitored and further guidance issued when appropriate);
 - (c) providing guidance on the structure of financial statements including minimum requirements for each primary statement, accounting policies and notes, and an illustrative appendix; and
 - (d) establishing (based on the Framework) practical requirements on issues such as materiality, going concern, the selection of accounting policies when no Standard exists, consistency and the presentation of comparative information.
3. To deal with users' demands for more comprehensive information on 'performance', measured more broadly than the 'profit' shown in the income statement, the Standard establishes a new requirement for a primary financial statement showing those gains and losses not currently presented in the income statement. The new statement may be presented either as a 'traditional' equity reconciliation in column form, or as a statement of performance in its own right. The IASB Board agreed in principle, in April 1997, to undertake a review of the way in which performance is measured and reported. The project is likely to consider,

IAS 1 (revised 1997)

initially, the interaction between performance reporting and the objectives of reporting in the IASB Framework. Therefore, IASB will develop proposals in this area.

4. The Standard applies to all enterprises reporting in accordance with IAS, including banks and insurance companies. The minimum structures are designed to be sufficiently flexible that they can be adapted for use by any enterprise. Banks, for example, should be able to develop a presentation which complies with this Standard and the more detailed requirements in IAS 20, *Disclosures in the Financial Statements of Banks and Similar Financial Institutions*.

what is for many the invisible hand of accounting to control the production and distribution of surplus value Marx claimed his theory of value was a work of science a critique of political economy that would deliver a theoretical blow from which the bourgeoisie would never recover He failed critics argue because his critique depends on hypothetical entities which we cannot directly observe such as value and abstract labour surplus value which means his theory is not open to empirical refutation The book however argues that he used his theory of value to explain the phenomenal forms of profit rate of profit etc by explaining the observable accounting principles and practices capitalists use to calculate and control them in which as he said we can glimpse the determination of value by socially necessary labor time which experience could have refuted
