Peters,Wouter Hulstijn,2012-12-06 The present book arose from a conference on Speech Motor Dynamics in Stuttering held at the University of Nijmegen in Nijmegen the Netherlands from June 13 15 1985 The conference was organized on the occasion of the 25th anniversary of the Department of Speech Pathology of the University Hospital The topic selected for the conference and now developed within this book Speech Motor Dynamics in Stuttering was judged to be particularly timely and especially relevant to an emerging body of work on stuttering For over ten years there had been no conferences that brought together researchers who have worked on stuttering from perspectives stressing the

dynamics of motor processes Yet during that time major changes have occurred in research on stuttering which signify a growing level of scientific maturity within the problem area This book attempts to characterize a number of major trends in research on speech motor processes in stuttering There has been a lessening in the postulation of causes of stuttering in the form of global hypothesis which have tenuous ties to empirical data New ideas about speech motor processes in stuttering have been stimulated by researchers who have done productive work on more general issues of motor control This book therefore directs our attention to a number of models of speech production which are relevant to stuttering

Runways & Racers Terry O'Neil, 2011 Runways and Racers focuses on sports car races held at military installations throughout America in the early 1950s It was a marriage of convenience for the Sports Car Club of America and the Strategic Air Command with both parties gaining advantages from the arrangement The thorn in the side turned out to be a Congressman whose own aspirations exceeded his standing but who found himself in a position to be able to influence the outcome of events
