Grandes Conclusions Jurisprudence Administrative:

Tort Liability of Public Authorities in European Laws Giacinto della Cananea, Roberto Caranta, 2020-12-15 This series argues that there is a common administrative core to European legal systems that can be better understood in comparative terms This volume examines government liability in tort using case studies to explore different government responses Part I sets the stage for the project and the parameters followed by the scholars involved Part II expands on the legal systems chosen for comparison setting up their general tort procedures Part III presents case studies from Austria the European Union France Germany Hungary Italy Poland Romania Spain Switzerland and the United Kingdom Each case study has a theoretical response detailing what would happen should that case occur within each country's borders Part IV compares and contrasts the information provided in Part III It examines both the commonalities and the distinctive traits of these legal systems with a view to understand the nature of their common core This volume is an essential tool for anyone involved in administrative and constitutional law and government liability in tort

The Public-private Law Divide Matthias Ruffert, 2009 This publication is a collection of papers of the second meeting of the Dornburg Research Group on New Administrative Law which was held in London in May 2007 Acknowledgments

The Making of Criminal Law Aniceto Masferrer, 2025-11-12 The separation of powers produced by the Enlightenment period reinforced the myth of the perfection of the law with criminal law being dependent on the principle of legality Demonstrating that this principle has not fundamentally altered judges methods of interpretation and decision making this collective volume explores the role of case law in the making of modern criminal law from the late 19th century to the end of the 20th century It enables us to gauge the influence of case law developed and to assess the extent to which it contributed to major criminal law decisions and the emergence of model criminal codes The book takes a comparative view across various European and American jurisdictions and offers an overview of European civil law traditions along with comparisons from the Americas The focus is on Western legal historiography which has hitherto been notably under researched The chronological point of departure is marked by the creation of the Supreme Court and the cassation in each jurisdiction Each chapter contains a short introduction to the role of jurisprudence in the making of criminal law from the 19th century onwards in that jurisdiction followed by an exploration of the contribution of the legal doctrine of the Supreme Court in the making or development of a particular criminal offence or institution The book will be of interest to scholars and historians working or teaching in the areas of legal history comparative legal history criminal law and comparative law It will also be of use to scholars interested in the study of law in different socio cultural contexts

Migrants from the European Union** Madalina Moraru, Galina Cornelisse, Philippe De Bruycker, 2020-08-06 This volume
examines the implementation of the Return Directive from the perspective of judicial dialogue While the role of judges has
been widely addressed in European asylum law and EU law more generally their role in EU return policy has hitherto
remained under explored This volume addresses the interaction and dialogue between domestic judiciaries and European
courts in the implementation of European return policy The book brings together leading authors from various backgrounds
including legal scholars judges and practitioners This allows the collection to offer theoretical and practical perspectives on
important questions regarding the regulation of irregular migration in Europe such as what constitutes inadequate
implementation of the Directive and under which conditions can judicial dialogue solve it How can judges ensure that the
right balance is struck between effective return procedures and fundamental rights Why do we see different patterns of
judicial dialogue in the Member States when it comes to particular questions of return policy for example regarding the use
of detention These questions are more timely than ever given the shifting public discourse on immigration and the growing
political backlash against immigration courts This book will be essential reading for all scholars and practitioners in the fields
of immigration law and policy EU law and public law Le commissaire du gouvernement près le Conseil d'État Nicolas

explores the sheer complexity of the SSM s institutional design adopting an comprehensive approach to banking supervision
At its core this work examines the tangible mechanisms of prudential regulation or supervision both at the European and
national levels offering a comparative analysis of ten national systems Reflecting the results of an intensive four year
research project that saw the collaboration of academics and practitioners it addresses two interrelated issues It investigates
the efficacy of the shared national and EU level enforcement system the EU introduced in reaction to the financial and
banking crisis Secondly it scrutinizes the role that criminal law can play in sanctioning the breaches to banking regulation
The Ghostwriters Tommaso Pavone, 2022-04-07 The European Union is often depicted as a cradle of judicial activism and

a polity built by courts Tommaso Pavone shows how this judge centric narrative conceals a crucial arena for political action Beneath the radar Europe s political development unfolded as a struggle between judges who resisted European law and lawyers who pushed them to embrace change Under the sheepskin of rights conscious litigants and activist courts these Euro lawyers sought clients willing to break state laws conflicting with European law lobbied national judges to uphold European rules and propelled them to submit noncompliance cases to the European Union s supreme court the European Court of Justice by ghostwriting their referrals By shadowing lawyers who encourage deliberate law breaking and mobilize courts against their own governments The Ghostwriters overturns the conventional wisdom regarding the judicial construction of Europe and illuminates how the politics of lawyers can profoundly impact institutional change and transnational governance

Contemporary French Administrative Law John Bell,François Lichère,2022-03-03 Despite the growing scholarly interest in comparative public law there remain relatively few works on the subject Contemporary French Administrative Law aims to redress that imbalance offering English language readers an authoritative introduction to the key features of French administrative law and its institutions The French legal system is among the most well developed and influential in the world and as procedures continually adapt to European and international influences it has never been more worthy of research study and interrogation This book employs a wide range of recent illustrative cases to demonstrate how French administrative law works both in theory and in practice Using a systematic approach and covering everything from judicial review to public contracts this is a highly valuable text for any student or researcher with an interest in French law The book is also available as Open Access
