Branches of Asanteism Abdul

Karim Bangura, 2019-10-03 *Branches of Asanteism* explores the epistemologies and research methodologies that have sprung from Mwalimu Molefi Kete Asante's treatises on Afrocentricity. The book identifies and analyzes thirteen such epistemologies and methodologies while defining and explicating the various branches of Asante's idea of Afrocentricity. **Facts, Fiction,**

and African Creative Imaginations Toyin Falola, Fallou Ngom, 2009-09-11 This volume brings together insights from distinguished scholars from around the world to address the facts, fiction, and creative imaginations in the pervasive portrayals of Africa, its people, societies, and cultures in the literature and the media. The fictionalization of Africa and African issues in the media and the popular literature that blends facts and fiction has rendered perceptions of Africa, its cultures, societies, customs, and conflicts often superficial and deficient in the popular Western consciousness. The book brings eminent scholars from a variety of disciplines to sort out the persistent fictionalization of Africa from facts pertaining to the genesis of powerful cultural, political, or religious icons; the historical and cultural significance of intriguing customs such as tribal marks, gender relations, causes of conflicts, and African responses; and creative imaginations in contemporary African films, fiction, and literature among others. **Never Again** Emma Etuk, 2008-05 In this book you will learn how Africa is greatly endowed and blessed with her contributions to world civilization, experiences with colonialism and neo-colonialism, her need to excel, produce, or perish, the lessons from history, and *Never Again*.

Heresy in the University Jacques Berlinerblau, 1999 One of the most controversial books to come out of the academy in the last fifteen years is Martin Bernal's *Black Athena*. It has been a true cause célèbre. Afrocentrists have both praised the book and claimed that Bernal stole from the work of black scholars to create his study of the Afroasiatic roots of classical civilization. Classicists feel passionately about what they perceive as an attack from an outsider on the origins, not only of ancient Greece but of their own discipline. It seems that everyone has something to say about the book; the question is how many really understand it. In *Heresy in the University* Jacques Berlinerblau provides an exegesis of the contents of *Black Athena*, making it accessible to a wider audience. As he clarifies and restates Bernal's opus, Berlinerblau identifies Bernal's flaws in reasoning and gaps in evidence. He cuts to the heart of Bernal's prose, singling out the key points of Bernal's argument, explaining and arranging them in a cogent manner. Berlinerblau addresses the critics' really important objections, including his own, and links each of them to the appropriate substantive argument in *Black Athena*. He goes beyond simple summary and exposition to present the underlying stated and unstated agendas of Bernal and his critics. Ultimately, he exposes both sides and asks what the flawed reasoning from all concerned reveals about the stakes in this key academic dispute and what that in turn says about the modern academy. Jacques

Berlinerblau is an assistant professor and director of Judaic studies at Hofstra University. *Encyclopedia of African History*

Kevin Shillington, 2005 Offers more than one thousand entries covering all aspects of African history civilization and culture

Stewards of Power Dwight S. M. Mutoonono, 2018-03-14 Africa's national leaders have failed the continent So have Africa's church leaders In *Stewards of Power* Restoring Africa's Dignity Dwight Mutoonono identifies the leadership problems plaguing the continent and appeals for good leadership in the style of the biblical Joseph rather than the xenophobic self-centred style exemplified by Jonah He offers practical suggestions for how African Christians can reject sycophancy and demand accountability from their leaders This is a prerequisite for restoring Africa's dignity with a clarion call for integrity and righteousness at a personal institutional and national level

Introduction to African American Studies Talmadge Anderson, James Benjamin Stewart, 2007 There is an ongoing debate as to whether African American Studies is a discipline or multidisciplinary or interdisciplinary field Some scholars assert that African American Studies use a well defined common approach in examining history politics and the family in the same way as scholars in the disciplines of economics sociology and political science Other scholars consider African American Studies multidisciplinary a field somewhat comparable to the field of education in which scholars employ a variety of disciplinary lenses be they anthropological psychological historical etc to study the African world experience In this model the boundaries between traditional disciplines are accepted and researches in African American Studies simply conduct discipline based an analysis of particular topics Finally another group of scholars insists that African American Studies is interdisciplinary an enterprise that generates distinctive analyses by combining perspectives from d
