New Perspectives on the Roman Civil Wars of 49-30 BCE Richard Westall, Hannah Cornwell, 2024-01-25 Offering new and original approaches to the Roman civil wars of 49 30 BCE the eleven papers presented here for the first time shed light on this crucial moment in the forging of Roman identity They engage with a variety of problems and topics in political discourse diplomacy the concept of libertas divine paternity socio economic structures allied rulers military officials civil war finances Agrippa's family material culture the coinage of Julius Caesar the physical remains of Corfinium and literary commemoration Sallust on trauma the lost Histories of Asinius Pollio The case studies presented here contribute to our understanding of a period that is just as fundamental for our view of the Romans as it was to the Romans themselves Arguing for the unity of the period in question the volume deploys a multiplicity of methodologies to analyse how the trauma of armed conflict and the breakdown of accepted socio cultural models not only mediated the contemporary experience of Roman civil war but also left a lasting impression upon how Romans viewed the world Incisive and critical these contributions by a diverse team of international researchers both emerging scholars and leaders in their fields offer a new window into the world of the late Republic and early Principate

Expressions of Time in Ancient Greek Coulter H. George, 2014-06-26 How did Ancient Greek express that an event occurred at a particular time for a certain duration or within a given time frame The answer to these questions depends on a variety of conditions the nature of the time noun the tense and aspect of the verb the particular historical period of Greek during which the author lived that existing studies of the language do not take sufficiently into account This book accordingly examines the circumstances that govern the use of the genitive dative and accusative of time as well as the relevant prepositional constructions primarily in Greek prose of the fifth century BC through the second century AD but also in Homer While the focus is on developments in Greek translations of the examples as well as a fully glossed summary chapter make it accessible to linguists interested in the expression of time generally

Ancient and Medieval Thought on Greek Enclitics Stephanie Roussou, Philomen Probert, 2023-03-07 This book has two complementary aims to improve our grasp of the ideas about Greek enclitics that ancient and medieval scholars have passed down to us and to show how a close examination of these sources yields new answers to questions concerning

the facts of the ancient Greek language itself New critical editions of the most extensive surviving ancient and medieval texts on Greek enclitics together with translations into English lay the foundations for an improved understanding of thought on Greek enclitics in those periods Stephanie Roussou and Philomen Probert then draw out the main doctrines and the conceptual apparatus and metaphors that were used to think and talk about enclitic accents consider the antiquity of these ideas within the Greek grammatical tradition and make use of both ancient and medieval sources to explore two much debated questions about the facts of the language itself Firstly the Greek sources turn out to shed new light first of all on the circumstances under which enclitic s was used and the circumstances under which non enclitic s appeared Secondly ancient and medieval evidence from several directions comes together in a way that has gone unnoticed until now and suggests a new answer to the question of how sequences of consecutive enclitics were accented in antiquity **The Classical Outlook**

Publishers Trade List Annual, 1996, 1 R R Bowker Publishing, Trade List Annual 199 Publishers', 1996-09 On the Grammar of Optative Constructions Patrick Georg Grosz, 2012 The primary aim of this dissertation is to present an analysis for so called optative constructions clauses that express a wish hope or desire without containing a lexical item that means wish hope or desire A secondary aim is to contrast optative constructions with so called polar exclamatives clauses that express surprise shock or dismay at a given fact without containing a lexical item that means surprise shock or dismay The goal is to better understand the way in which syntax semantics and pragmatics interact in order to yield the meanings and uses that these constructions have The core claim is that we can understand optative constructions by virtue of exploring three properties that they share First I argue that optatives and polar exclamatives contain a generalized exclamation operator EX which serves to express an emotion towards the status of the modified proposition on a contextually provided scale Second I argue that semantic mood including factivity and counterfactuality is encoded in a distinguished Mood head the content of which co determines both morphological mood and the material that overtly surfaces in the position of C Third I argue for a generalized analysis of prototypical particles including non exclusive ONLY concessive AT LEAST and unstressed DOCH My analysis treats these particles as truth conditionally vacuous presupposition triggers which interact with optativity in three different ways First they convey additional information with respect to the modified proposition Second they eliminate alternative readings for an ambiguous clause due to incompatibility Third this disambiguating role makes them ideal licensors for a marked utterance type Chapter 1 of this dissertation is an introductory chapter that presents the core proposal in a nutshell After this coarse overview chapter 2 reviews some basic definitions and background on optatives and polar exclamatives Subsequently I proceed to a presentation of my entire system in chapter 3 The following chapters discuss each of the three core parts in turn starting with the EX operator in chapter 4 followed by semantic mood in chapter 5 and finally I discuss particles in chapter 6 Chapter 7 concludes *Linguistics and Language Behavior Abstracts*, 1993 **National Union Catalog**, 1982 Includes entries for maps and atlases Second Language Instruction/acquisition Abstracts, 1993 *Vico and Plato* Nancy Du Bois Marcus, 2001 Of the four authors Vico states that he had always before him Plato Tacitus Bacon and Grotius the most famous has also been the most neglected Vico and Plato is the first book length study of Vico s relationship to his first author Plato This study traces the enigmatic references to Plato and the Platonists in Vico s major works Seen in the light of its Platonic dimension Vico s New Science forges a middle way between the extremes

of dogmatism and skepticism in epistemology as well as Stoicism and Epicureanism in metaphysics and moral philosophy What emerges from placing Vico's thought in the context of the family of Plato from Socrates and Plato to Augustine and Giovanni Pico della Mirandola is a portrait of Vico as a Platonic philosophical hero for our own time National Union Catalog, 1982 ,1983 *Paul Decentered* Arminta M. Fox,2019-12-02 This book argues that the presence of women in the Christ communities of first century Corinth changes how 2 Corinthians should be interpreted Using a feminist approach to interpret the text Arminta M Fox presents readings that are ethically and historically viable She examines how questions of community identity and leadership are situated within broader discourses of power in the Roman imperial and patriarchal contexts of the first century Mediterranean world By assuming the dialogical presence of strong and diverse women leaders in the community Fox develops counter readings to ones that assume Paul's singular authority Advances in the Study of Greek Constantine R.
