What others are saying about LEED AP O M Mock Exam These are TOUGH sample tests You need this book I used this book as a review in the day or two before my exam The questions in this book could very well be found on the exam but most actual exam questions will not be as complex as they are made here Most of these questions on these mock exams have a twist or trick and many can only be answered if you know the materials backwards and forward This makes for GREAT exam preparation because it makes you acutely aware of the types of tricks and the level of detail you MIGHT see on the exam G Patton I highly recommend this book The book was extremely helpful for me passing the exam The questions really challenged me to dig deeper into the details of each category I felt this was one of several tools to help me be prepared for the exam I highly recommend this book Edwin F Sierra Such a great tool I passed the exam at the first attempt These mock exams helped me to learn how to tackle the problems and which areas I should focus on I worked with another book of the author also It took 2 3 weeks for my preparation Chai

Designing Sustainable Factories Lia Marchi, 2022-02-16 Economic constraints and lack of knowledge often prevent companies especially small and medium enterprises from harmonizing their facilities with the landscape As a result factories

significantly impact the quality of our living environment in terms of physical effects on the ecosystem perceptual interferences with the surroundings and disturbances on local communities At both the design and maintenance stages a set of appropriate tools can assist businesses in becoming more aware of their impacts and identifying possible mitigation strategies The book presents an assessment tool and a library of inspiring design tactics for factories with examples of the benefits and synergies for the environment the scenery the community and the company itself The purpose is to elicit more than a simple reflection about what a sustainable factory entails It is rather to encourage and assist both businesses and designers in mitigating the impact of industrial facilities on the landscape as holistically as possible **Guide to the LEED**
