Handbook of Sustainability Management Christian N. Madu, Chu-hua Kuei, 2012 Sustainability is about the effective management of nonrenewable and nonreplenishable natural resources These resources are limited and critical to maintaining ecological balance A collective effort is required to balance our socio economic needs with environmental needs This could be achieved by re evaluating policies and actions as to how they affect the environment Sustainability requires changes in traditional practices of doing things and refocusing ourselves to the needs of the earth This handbook explores the role of sustainability in achieving social development environmental protection and economic development These three areas constitute what is referred to as the triple bottom line TBL Sustainability management may help organizations and their global supply networks

to re evaluate their policies processes programs and projects in terms of triple bottom line Sustainability helps to facilitate planning implementing reviewing and improving an organization s actions and operations to meet ecological goals *Global Environmental Security* Yuji Suzuki,Kazuhiro Ueta,Shunsuke Mori,2012-12-06 Z Sonoda It is my great honour to declare the opening of the 2nd IBM Japan International Symposium on The Global Environment It is especially my honour on behalf of IBM Japan to welcome all of you most distinguished experts of the world Historically IBM Japan has maintained a strong interest in the protection of the global environment not only as a member of the industrial community but also as a member of the global community where environmental disruption has become more and more significant and of common concern In 1990 we held the first environmental symposium on Global Warming It offered a stage to which both social and natural scientists could bring problems about The Global Environment for in depth discussions One of its conclusions includes collaboration about socio economic aspects among the industrialized and developing countries With this in mind we now host the 2nd symposium which focuses upon a socio economic approach to global environmental problems I understand that the symposium will seek a solution by examining actual experiences and circumstances from various parts of the world with special attention given to North South issues Thus we have invited guests from America Europe and neighbouring Asian countries alike I wish and believe that the symposium will bring about new clues toward a breakthrough for the betterment of the environment through positive and harmonious discussions in this beautiful setting at the foot of Mt Fuji **An**

Introduction to the Green Economy Adrian C. Newton,Elena Cantarello,2014-08-13 The green economy is widely seen as a potential solution to current global economic and environmental crises and a potential mechanism by which sustainable development might be achieved in practice Considerable investments are now being made into the development of green technology renewable energy biodiversity conservation resource efficiency recycling of materials and green infrastructure This textbook provides a comprehensive introduction to the green economy using a strongly interdisciplinary approach based on environmental science rather than treating it as a sub set of economics The scientific principles of sustainability are presented which provide the foundations of the green economy with a particular focus on systems based approaches Examples of real world case studies are used to illustrate how the green economy can be achieved in practice In this way the authors provide a thorough overview of both the principles and practice of the green economy drawing from a wide range of disciplines including ecology geography social science psychology sustainability science environmental science law and economics The emphasis is on presenting results of the latest research derived from leading scientific journals Rather than focusing on a single definition of what constitutes a green economy the book introduces readers to the diversity of opinion that exists and engages them in what is an active on going debate This reflects the fact that many aspects of the green economy and sustainable development more generally are currently contested In particular the book will help readers to strengthen their ability to critically evaluate the evidence for and against the views presented and to actively contribute to

the future development of the green economy *Global Environmental Politics* Hayley Stevenson, 2017-11-02 Concern about humanity's impact on the planet has never been greater but what are the drivers of environmental change This wide ranging introductory textbook outlines the competing explanations of why environmental problems occur and examines the different political approaches taken to address them Adopting a case study approach Hayley Stevenson enables students to gain a detailed understanding of how theories and concepts are applied in practice Diverse perspectives on a variety of contemporary environmental challenges from climate change to hazardous waste as well as various responses from multilateral diplomacy to consumer focused campaigns provide students with an in depth understanding of the merits and limitations of different forms of political action Refined on the basis of classroom feedback features include textboxes key points a glossary of key terms questions further reading suggestions and supplementary online resources This lively book is an essential resource for advanced undergraduate and postgraduate courses on global environmental politics and environmental policy *Labelling Strategies in Environmental Policy* Mario Teisl, 2017-11-30 Eco labelling programmes have been in existence for many years but their recent growth now extends to many products and services The academic literature has grown in response and there have been several theoretical and empirical advances This volume presents the best of previously published research on the design and effects of eco labelling programmes Whilst concentrating on the economic literature the articles also approach the topic from a psychological sociological and political point of view Part One focuses on a range of theoretical developments Part Two on empirical measurements of the effectiveness of eco labelling Part Three on the factors that influence the success and design of eco labelling programmes and Part Four on the effects of eco labelling on international trade and development **Innovation, Science, Environment 07/08** G. Bruce Doern, 2007-03-01 This second volume in the ISE series examines the reshaping of ISE policy in the context of multi level governance and policy Contributors examine climate change policy innovation in the natural resources sector the internet pharmacy trade biotechnology policy and governance provincial government renewable energy policies the psychological and human nature connection with sustainable development policies procurement policy and innovation the Canadian Institutes of Health Research and the commercialization of Canada's universities *Energizing Green Cities in Southeast Asia* Dejan R. Ostojic, Ranjan K. Bose, Holly Krambeck, Jeanette Lim, Yabei Zhang, 2013-10-07 This book presents a blueprint for transforming East Asian cities to global engines of green growth by choosing energy efficient solutions for their infrastructure needs with case studies in Cebu City the Philippines Da Nang Vietnam and Surabaya Indonesia illustrating the use of sustainable urban energy and emissions planning SUEEP **BRAND EQUITY: AN INDIAN PERSPECTIVE** SANGEETA TROTT, VINOD V. SOPLE, 2016-01-01 The value of a brand is acknowledged only when a consumer is happy and satisfied using it Hence recognition and praise enhance the brand value or brand equity of a product and makes a product a brand Therefore brand equity becomes a precedence for any product to become a brand This book delves onto the concepts and theories of Brand

Equity and how it forms an integral part of any product becoming a success The book skillfully explains fundamental concepts of brand equity and its importance in product services marketing in the Indian context Divided into four parts Part 1 of the book begins by explaining the meaning of branding and brand equity Part 2 then focuses on various components of brand equity Part 3 educates the readers students on how to measure brand equity of a product or a brand Part 4 concludes by elaborating on ways and means to enhance brand equity of any product This book is designed for the postgraduate degree and PG Diploma students of management specializing in Marketing and brand management The book will be equally useful for practising Product Brand Managers Public Procurement and Multilateral Development Banks Sope

Williams-Elegbe,2017-03-23 The multilateral development banks cumulatively channel billions of dollars annually in development assistance to borrower countries This finance is usually spent through processes that incorporate the public procurement regulations of the banks and it is often a condition of this finance that the funds must be spent using the procurement regulations of the lender institution This book examines the issues and challenges raised by procurement regulation in the multilateral development banks The book examines the history of procurement regulation in the banks the tripartite relationship created between the banks borrowers and contractors in funded procurements the procurement documents and procurement cycle as well as how the banks ensure competition and value for money in funded procurements The book also examines the banks approach to sustainability concerns in public procurement such as environmental social or industrial concerns as well as how the banks address the issue of corruption and fraud in funded contracts Another issue that is addressed by this book is how the banks have implemented the aid effectiveness agenda It will be seen that the development banks have undertaken steps to harmonise their policies and practices increased borrower procurement capacity taken steps to reduce the tying of aid and play an important role in the reform of borrower procurement systems all in an effort to improve the effectiveness of development finance The book also considers the contractual and other remedies that are available to parties that may be aggrieved as a result of a funded procurement The book analyses compares and contrasts the legal practical and institutional approaches to procurement regulation in the World Bank the Inter American Development Bank the African Development Bank the Asian Development Bank and the European Bank for Reconstruction and Development **Economic Theory and Policy amidst Global Discontent** Ananya Ghosh Dastidar,Rajeev

Malhotra,Vivek Suneja,2018-02-06 This book rethinks economic theory and calls for a creative and pragmatic approach to policymaking It examines what development and sustenance of economic progress mean and how these may be facilitated The relevance of this issue has received fresh impetus from the significant changes in the degree and pattern of international economic relations that are unfolding across the world posing both opportunities and challenges While globalisation of goods and financial markets may have delivered high growth for some nations the distribution of the benefits has often been highly unequal with gains to owners of capital and skills being disproportionately higher compared to that of labour especially the

unskilled Widening and persistent inequalities have been at the heart of rising polarisation and spread of conflicts that threaten the social fabric This work emphasises the relevance of a broad policy framework based on building individual capabilities and in line with a human centric perspective At the same time it points out the crucial need to create policy space for macroeconomic stability and to accommodate heterodox influences especially when conventional wisdom proves inadequate as starkly demonstrated inter alia during the recent global financial crisis This festschrift dedicated to Deepak Nayyar presents chapters on diverse themes that address the persisting global problems of poverty inequality and sustaining development The book will be of great interest to scholars and researchers of economics development studies public policy and governance and also to policymakers government officials and those in media The Paradigm Shift from a Linear Economy to a Smart Circular Economy Mansoor Alaali, Abdalmuttaleb M. A. Musleh Al-Sartawi, Arafat Salih

Aydiner, 2025-07-28 The concept of the circular economy has attracted the attention of scholars researchers professionals and policymakers in recent years The notion is characterised as an economy that intends to keep products stocks work in progress and materials at their highest utility and value continually distinguishing between their technical and biological cycles It is devised as a continuous positive development cycle that reserves and improves natural resources optimizes outputs and minimizes supply chain related risks by overseeing limited stocks and renewable flows of the stocks Several legislations and policies are being developed to motivate and integrate SDGs and net zero related approaches in companies among which the circular economy CE is gaining momentum due to its documented impact on the elements of the SDGs and net zero Efficient management of resources and utility via artificial intelligence is vital towards a smart circular economy by minimising waste losses pollution and extraction of virgin resources It is important to note that there is a difference between smart and traditional circular economies This book focuses on the former and makes distinctions in terms of how technology systems and solutions can be effectively and efficiently implemented This book The Paradigm Shift from a Linear Economy to a Smart Circular Economy The Role of Artificial Intelligence Enabled Systems Solutions and Legislations discusses the transition from linear to smart circular economy by dissecting the role of artificial intelligence and other technologies such as big data IoT and blockchain in such transformations The book further aims to provide a platform for researchers professionals and students to closely investigate discuss and examine the theories philosophies ontologies and the role of governments policymakers and businesses in supporting the transition to a smart economy via national initiatives fiscal policies and corporate governance The book highlights the need for collaborative efforts between various actors including the private and public sectors through cross disciplinary approaches to attain maintain and sustain a smart circular economy
