LEED v4 Green Associate Exam Guide (LEED GA) GangChen, 2014-08-01

Pass the LEED Green Associate Exam Get Your Building LEED Certified Fight Global Warming and Save Money The USGBC released LEED v4 at the GreenBuild International Conference and Expo in November 2013. The GBCI started to include the new LEED v4 content for all LEED exams in late Spring 2014. We have incorporated the new LEED v4 content in this book. Starting on December 1, 2011, GBCI began to draw LEED Green Associate Exam questions from the second edition of Green Building and LEED Core Concepts Guide. We have incorporated this information in our book. LEED Leadership in Energy and Environmental Design is one of the most important trends of development and is revolutionizing the construction industry. It has gained tremendous momentum and has a profound impact on our environment. From this book, you will learn how to do the following:

1. Pass the LEED Green Associate Exam
2. Use LEED exam preparation strategies, study methods, tips, suggestions, mnemonics, and exam tactics to improve your exam performance
3. Effectively understand, digest, and retain your LEED knowledge
4. Understand the process of registering and certifying a building for LEED
5. Understand the scope, main intent, core concepts, and strategies, as well as identify the regulations, recognition, and incentives for each major LEED category
6. Identify the strategies for case studies
7. Identify the synergy in case studies
8. Implement the most important LEED related codes and building standards
9. Get points for categories not yet clearly defined by the USGBC

This book fills in the blanks and demystifies LEED. It uncovers the secrets, codes, and jargon for LEED, as well as the true meaning of going green. It provides a solid foundation and fundamental framework for LEED. It covers every major aspect of LEED in plain and concise language and introduces it to ordinary people. This guide is small and easy to carry around. You can read it whenever you have a few extra minutes. It is an indispensable book for ordinary people, developers, brokers, contractors, administrators, architects, landscape architects, civil, structural, mechanical, electrical, and plumbing engineers, interns, drafters, designers, and other design professionals.

What others are saying about LEED Green Associate Exam Guide Part I: Finally, A comprehensive study tool for LEED GA Prep. I took the one-day Green LEED Green Associate course and walked away with a power point binder printed in very small print which was missing MUCH of the required information. Although I didn't know it at the time, I studied my little heart out and took the test only to fail it by 1 point. Turns out I did NOT study all the material I needed to in order to pass the test. I found this book, read it, marked it up, retook the test, and passed it with a 95%. Look, we all know the LEED Green Associate Exam is new and the resources for study are VERY limited. This one's the VERY best out there right now. I highly recommend it.

Consultant VA: Complete overview for the LEED Green Associate exam. I studied this book for about three days and passed the exam. If you are truly interested in learning about the LEED system and green building design, this is a great place to start.

success The best way to practice taking a test is by going through lots of practice test questions If someone has never taken a practice test then they are unprepared for the types of questions and answer choices that they will encounter on the official test There is a tremendous advantage to someone taking the test that is already familiar with the questions and answer choices Another advantage of taking practice tests is that you can assess your performance and see if you need to study and practice more or if you re already prepared enough to achieve success on your test day If you do well on the practice test then you know you re prepared If you struggle on the practice test then you know you may still have more work to do to get prepared Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day Our LEED Green Associate Exam Practice Questions give you the opportunity to test your knowledge on a set of questions You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses Detailed answer explanations are also included for each question It may sound obvious but you have to know which questions you missed and more importantly why you missed them to be able to avoid making the same mistakes again when you take the real test That s why our practice questions include answer keys with detailed answer explanations These in depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand
