## NOKIA N95

RM-159/RM-245

### Introduction

#### DISCLAIMER

This document is intended for use by authorized Nokia service centers only.

"Service Schematics" was created with focus on customer care. The purpose of this document is to provide further technical repair information for Nokia mobile phones on used full service centers. It contains additional information such as, "Component finder". The "Signal overview" page gives a good and fast overview about the most important signals and voltages on board. Taking process time and ensuring the repair quality is the aim of this document. It is to be used additionally to the service manual and other training or service information such as Technical Bulletin.

#### Measurement was made with following equipment:

|                               |                                       |

#### A NEW FEATURE FOR RM-159, 175:

We have redefined these measurement points  which are related to the oscilloscope shown on the signal overview page. As example clicking on the measurement point  guide you to the matching settings on the signal overview page. The next click into the new chosen signal guide you to the related measurement point on the module. Finally, clicking OK, turn into the measurement point  on the module, takes you back to the starting point inside the schematics.

Do you have further improvement ideas or would like to give us feedback?
