Flash 8, 2006 **Object-Oriented ActionScript For Flash 8** Peter Elst, Gerald YardFace, 2006-11-24 With the release of Macromedia Flash 8 Flash is the most powerful and widely used client software for the web and it's the only one that runs on virtually every browser on every platform. It also features ActionScript a scripting language with great object oriented support. As such Flash is the ideal platform for producing sophisticated object oriented web applications. Complex applications demand a solid understanding of object oriented programming OOP techniques regardless of the language and platform used and this book will provide all you need. Object Oriented ActionScript For Flash 8 teaches the theory and practice of OOP with ActionScript. You do not need any extensive prior programming experience you just need to want to go beyond the usual Flash interfaces. Authors and working Flash developers Peter Elst and Todd Yard take you through the complete development cycle of a series of related applications using numerous step by step instructions. You'll be able to develop highly reusable applications and services that leverage the dynamic features in Flash. This book demonstrates professional OOP skills and techniques that are completely transferable to other programming languages and technologies including Inheritance Polymorphism managing classes component development consuming web services and much more. It also includes some cutting edge ActionScript programming techniques and animation and effects classes. **Sams Teach Yourself Macromedia Flash MX in 24 Hours** Phillip Kerman, 2002 Updated and revised this bestselling tutorial is a clearly written well organized introduction to Flash and gives the beginner an overview of the application's newest version.
