Manual Non International Armed Conflict:

The Manual on the Law of Non-international Armed Conflict Michael N. Schmitt, International Institute of Humanitarian Law, 2006 The Law of Non-International Armed Conflict Sandesh Sivakumaran, 2012-08-09 Non international armed conflicts now far outnumber international ones but the protection afforded by international law to combatants and civilian is not always clear This book will set out the legal rules and state practice applicable to internal armed conflicts drawing on armed conflicts from the US civil war to present day *Non-international Armed Conflict in the Twenty-first Century* Kenneth Watkin, Andrew J. Norris, 2012 Examines the legal issues surrounding non international armed conflict NIAC in the modern era Non-International Armed Conflicts in International Law Yoram Dinstein, 2014-08-21 This dispassionate analysis of the legal implications of non international armed conflicts explores the rules regulating the conduct of internal hostilities as well as the consequences of intervention by foreign States the role of the Security Council the effects of recognition State responsibility for wrongdoing by both Governments and insurgents the interface with the law of human rights and the notion of war crimes The author addresses both conceptual and specific issues such as the complexities of failing States or the recruitment and use of child soldiers He makes use of the extensive case law of international courts and tribunals in order to identify and set out customary international law Much attention is also given to the contents of available treaty texts primarily the Geneva Conventions Additional Protocol II and the Rome Statute of the International Criminal Court what they contain and what they omit **Israel Yearbook on Human Rights, Volume 36 (2006)** Yoram Dinstein, Fania Domb, 2006-11-01 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations The highlight of Volume 36 of the Israel Yearbook on Human Rights is a reproduction of the full text and commentary of a new Manual relating to Non International Armed Conflicts prepared by a Drafting Committee under the aegis of the San Remo International Institute of Humanitarian Law This is a sequel to the well known San Remo Manual on International Law Applicable to Armed Conflicts at Sea published in 1995 The new Manual reflects the results of a larger Project launched by the Institute the background papers of which were printed in full in volume 30 2000 of the Yearbook The sphere of non international armed conflicts is gaining increasing importance and attention due to the growing frequency and menace of internal wars The imperative need to come up with an authoritative restatement of the law governing these conflicts has become obvious This is a first attempt of its kind and it is bound to arouse interest and debate Non-Binding Norms in International Humanitarian Law Emily Crawford, 2021-12-23 This monograph examines and analyses the

phenomenon of non binding instruments also known as soft law in the law of armed conflict or international humanitarian law In the past 30 years there have been several non binding instruments created designed as either best practice guidelines or re statements of applicable law These instruments are not treaties but they nevertheless put themselves forward as authoritative statements of what the law is and in some instances what the law should be Soft law instruments can be dynamic prompt and responsive measures to address pressing issues in armed conflicts By drawing on the skill of a small group of experts these instruments can be debated and drafted in a timelier manner than if these issues were to be left to the international community of 194 States to resolve Furthermore because these instruments do not have to be sent for debate to an international conference of States it means that the provisions are not subject to the usual revisions reservations and dilutions that come with attempting to reach consensus However there are potential and actual problems with these instruments and the processes that bring them to fruition and how they are received in practice by States and other stakeholders This volume looks at the benefits and drawbacks for States and non State actors with regards to soft law whether they are effective additions to the law of armed conflict analysing the development through the lens of theories of legitimacy and legality in international law

The Treatment of Combatants and Insurgents Under the Law of Armed Conflict Emily Crawford, 2010-01-14 This book looks at why international law continues to make the legal distinction between persons who participate in an international or an internal armed conflict and drawing on considerable legal precedent legal theory and the situation in Guantanamo Bay it argues that it is time for the law of armed conflict to be applied more uniformly

Intersections in International Cultural Heritage Law Anne-Marie Carstens, Elizabeth Varner, 2020-05-15 The recent spate of threats to cultural heritage including in Iraq Mali Nepal Syria and Yemen has led to increased focus on the sources of international cultural heritage law This edited volume shows that international cultural heritage law is not a discrete and contained body of law but one whose component parts are drawn from diverse fields of public international law It shows how cultural heritage law has been shaped by its interaction with other areas of international law and how it has contributed to international law in turn In this volume scholars and practitioners explore some of the primary points of intersection between international cultural heritage law and public international law Chapters explore intersections with the law of armed conflict international and transnational criminal law international human rights the international movement regulation and restitution of cultural artefacts and the UN system The result is a cohesive collection that not only explores many facets of the intersections of cultural heritage law and public international law but also examines how the regimes operate together and how the relationship between them largely facilitates but also sometimes hinders the development of international law governing the protection of cultural heritage

Military Necessity in International Cultural Heritage Law Berenika Drazewska, 2021-12-13 This book offers the first comprehensive scholarly analysis of the current meaning and scope of military necessity a key concept in the international legal framework for the protection of cultural heritage during armed conflicts since the adoption of the 1954 Hague Convention Academic discussions commonly view military necessity uniquely through the lens of international humanitarian or international criminal law In her book Berenika Drazewska presents a more comprehensive perspective examining developments across various strands of international law arisen since 1954 This novel approach demonstrates how international cultural heritage law affords a particularly strict meaning to military necessity As a result the relative waiver will only be available to belligerents very rarely in truly extraordinary circumstances Drazewska's *Military Necessity in International Cultural Heritage Law* engages a significant issue in this rapidly evolving field of international law the inclusion of necessity in regulation of the protection of cultural heritage during armed conflict after 1945 Its very inclusion was viewed as a major concession which is only multiplied because of the difficulties of its application on the ground This thorny issue has come to the fore again with large scale cultural losses inflicted during recent armed conflicts Elegantly written and scholarly in its approach this book places this question and possible answers to it within the broader sweep of international law and recent developments not only in international humanitarian law but state responsibility international criminal law and international criminal law It offers a significant and timely reexamination and reconceptualization of this important topic Prof Ana Filipa Vrdoljak UNESCO Chair
