Globocop How America Sold Its Soul And Lost Its Way:

Globocop: How America Sold Its Soul and Lost Its Way Mark David Ledbetter, 2004-10-24 The first post 9 11 election gave us a choice between two big government high tax globocops quibbling over the details not an alternative to the aggressive international militarism that makes us the natural and logical target of terrorism This book looks at the progression from republic protected by militia to empire protected by standing armies in Athens and Rome and the similar progression in America It looks at an alternative The Swiss way which has kept Switzerland free and republican for 700 years in the center of a warlike continent America once understood and followed Washington s Great Rule and J Q Adams admonition not to go out into the world in search of monsters to destroy We were then the light not the sword of freedom Now we have picked up the sword only to see the light grow dimmer year by year **America's Forgotten History: Part Two - Rupture** Mark David Ledbetter, 2005-11-23 Continuation of Part One Monroe to Lincoln each president a chapter The struggle between Jeffersonianism and Hamiltonianism continues but slavery warps the debate Westward expansion tariffs and free trade vs government business collusion The Great Awakening John Quincy Adams Marshall Clay and Lincoln Jackson and Van Buren And finally Puritans and Cavaliers dispute once again their deep cultural divide in another great and terrible civil war on a new continent CONTACT mark david ledbetter gmail com *America's Forgotten History: Part One. Foundations* Mark David Ledbetter, 2005-03-29 Is it America s destiny to be both a nanny state and garrison state America s Forgotten History questions standard history from a constitutionalist point of view This the first of five volumes covers English roots the colonial period the Revolution the Constitution and the first four presidential administrations those of Washington Adams Jefferson and Madison CONTACT mark david ledbetter gmail com **America's Forgotten History. Part Three: A Progressive Empire** Mark David Ledbetter, 2015-04-30 America s Forgotten History is the story of America seen through libertarian eyes It aims to be a good story and one sympathetic to all sides Part Three of the series A Progressive Empire takes us from the end of the Civil War to the Spanish American War and the Philippine Insurrection Along the way as we trace party politics and presidencies we look at Reconstruction and the Freedmen The Indian Wars in the West The land grant railroads The labor and farmer movements Populism and Progressivism The Social Gospel and Christian Socialism Jim Crow laws and Sundown Towns In the climactic final chapter an America both driven to lead and fearful of being left behind finally joins Europe and Japan in the pursuit of overseas colonies 1898 would mark the great if largely forgotten turning point when America became a progressive empire *United States Engagement in the Asia Pacific: Perspectives from Asia* Yoichiro Sato, See Seng Tan, 2015-07-15 This study brings together Asian and Asia based experts of international relations and U S foreign policy to present diverse Asian views about preferred modes of U S engagement in the region and compare their views with U S interests in the region a prerequisite exercise to truly multilateral regional security governance With the rise of Chinese power in absolute and relative terms over the next decades

as a key driving factor of the international relations in the Asia Pacific the United States has announced its Rebalance to Asia previously referred as Pivot to Asia strategy Asian responses perceptions and even interpretations of the U S strategy have been diverse Misconceptions of the U S strategy can be attributed to the built in contradictions among its objectives deliberate ambiguities left by the architects of the strategy mismatch between the stated strategy and actual policy implementations during the last three years and subjective reading by the Asian countries through the lens of their own interests This book will illuminate the diversity of Asian responses and perceptions and analyze the underlying reasons of the diversity The overarching framework of analysis for this book is the very dilemma of alliances abandonment and entrapment which hedging aims at evading Abandonment fear is primarily of the junior partner of an alliance that its senior partner may not come to its aid in crisis Meanwhile entrapment fear works both ways The United States may drag its allies into its conflict against a third party but U S allies may also drag the United States into their regional conflicts in which the United States has no direct or significant stake The Asian choices of their strategic responses to the U S Rebalancing will be described and analyzed through the lens of the perceived balance between the abandonment and entrapment fears as well as other historical and domestic factors unique to each Asian country The reading of the U S strategy by Asian countries is a subjective matter and their interests likely influence their analysis and consequently strategies It is not the aim of this volume to establish well defined cause and effect chain between the U S strategy and Asian strategies but thick descriptions have enabled some chapter authors to identify reciprocal relations between the two While China s growth is the most important driver of the changing strategic landscape in the Asia Pacific and the new U S strategy the new U S strategy inevitably influence the Chinese strategy which in turn triggers a chain reaction of strategic revisions in Asian countries This book is essential reading for scholars in Asian politics U S foreign policy international relations as well as for policy makers

Plato's Cave John O'Neill, 1991 This book argues that our world is inescapably mediated or specularized It investigates human dilemmas without taking flight into cultural and political elitism and at the same time does not ignore the corporate and military agenda that is serviced by the media at great human cost Arguments are drawn from political economy psychoanalysis and semiotics to describe the cultural functions of the media with respect to the state the economy the family women and children and with regard to the problem of sustaining democratic public and civic institutions whose activities are wholly represented through the media
