Thomas's God remains an unconscious but potent influence in the shaping of modern western thought and to ask what transformations might be needed in order to bring about a Thomism for our times Probing beneath the surface of Thomas's Summa Theologiae and other writings she brings to light the Other of Thomas's One God an incarnate maternal Trinity who emerges when Thomas's Aristotelian ontotheology is suspended and the more neglected aspects of his doctrinal and theological insights are allowed to emerge Lacan makes possible a renewed Thomism which offers a rich theology of creation incarnation and redemption capable of responding to some of the most urgent and far reaching challenges that questions of gender nature and God pose to Christian theological language in its classical and postmodern formations *Pro Ecclesia Vol 20-N4* Pro Ecclesia,2011-10-27 Pro Ecclesia is a quarterly journal of theology published by the Center for Catholic and Evangelical Theology **Pro Ecclesia Vol 19-N2** Pro Ecclesia,2010-05-16 Pro Ecclesia is a quarterly journal of theology published by the Center for Catholic and Evangelical Theology It seeks to give contemporary expression to the one apostolic faith and its classic traditions working for and manifesting the church's unity by research theological construction and free exchange of opinion Members of its advisory council represent communities committed to the authority of Holy Scripture ecumenical dogmatic teaching and the structural continuity of the church and are themselves dedicated to maintaining and invigorating these commitments The journal publishes biblical liturgical historical and doctrinal articles that promote or illumine its purposes Ways to subscribe Call toll free 800 273 2223 Email journals rowman com For back issues please contact journals rowman com Editorial inquiries Joseph Mangina joseph.mangina@utoronto.ca Submissions should be sent by email attachment in Microsoft Word double spaced with identifying marks removed for the purposes of blind peer review Book review inquiries Chad Pecknold pecknold@cua.edu Advertising inquiries Charles Roth Jr charlie.spireads.com Subscription inquiries journals rowman com ISSN 1063 8512 **Pro Ecclesia Vol 21-N1** Pro Ecclesia,2011-12-29 Pro Ecclesia is a quarterly journal of theology published by the Center for Catholic and Evangelical Theology The Political Problem of Religious Pluralism Thaddeus J. Kozinski,2012-07-10 In contemporary political philosophy there is much debate over how to maintain a public order in pluralistic democracies in which citizens hold radically different religious views The Political Problem of Religious Pluralism deals with this theoretically and practically difficult issue by examining three of the most influential figures of religious pluralism theory John Rawls Jacques Maritain and Alasdair MacIntyre Drawing on a diverse number of sources Kozinski addresses the flaws in each philosopher's views and shows that the only philosophically defensible end of any overlapping consensus political order must be the eradication of the ideological pluralism that makes it necessary In other words a pluralistic society should have as its primary political aim to create the political conditions for the communal discovery and political establishment of that unifying tradition within which political justice can most effectively be obtained Kozinski's analysis though exhaustive and rigorous still remains accessible and engaging even for a reader unversed in the works of Rawls Maritain and MacIntyre Interdisciplinary and multi thematic in nature it will appeal to

anyone interested in the intersection of religion politics and culture *T&T Clark Handbook of Political Theology* Rubén Rosario Rodríguez, 2019-10-03 The T and the contributors then build on previously discussed historical resources and methods to engage with contemporary issues and challenges emphasizing interreligious dialogue even while addressing concerns of relevance to a particular faith tradition The volume concludes with three essays that look at the future of political theology from the perspective of each Abrahamic religion Complete with select bibliographies for each topic this companion features the most current overview of political theology that will reach a broader global audience of students and scholars

Versions of Election David Aers, 2020-11-30 Concepts of predestination and reprobation were central issues in the Protestant Reformation especially within Calvinist churches and thus have often been studied primarily in the historical context of the sixteenth and seventeenth centuries In *Versions of Election* From Langland and Aquinas to Calvin and Milton David Aers takes a longer view of these key issues in Christian theology With meticulous attention to the texts of medieval and early modern theologians poets and popular writers this book argues that we can understand the full complexity of the history of various teachings on the doctrine of election only through a detailed diachronic study that takes account of multiple periods and disciplines Throughout this wide ranging study Aers examines how various versions of predestination and reprobation emerge and re emerge in Christian tradition from the Middle Ages through the seventeenth century Starting with incisive readings of medieval works by figures such as William Langland Thomas Aquinas and Robert Holcot and continuing on to a nuanced consideration of texts by Protestant thinkers and writers including John Calvin Arthur Dent William Twisse and John Milton among others Aers traces the twisting and unpredictable history of prominent versions of predestination and reprobation across the divide of the Reformation and through a wide variety of genres In so doing Aers offers not only a detailed study of election but also important insights into how Christian tradition is made unmade and remade *Versions of Election* is an original cross disciplinary study that touches upon the fields of literature theology ethics and politics and makes important contributions to the study of both medieval and early modern intellectual and literary history It will appeal to academics in these fields as well as clergy and other educated readers from a wide variety of denominations *Strength of Mind* Jacob L. Goodson, 2018-09-19 Higher education in the twenty first century should bring together freedom and knowledge with courage and hope Why these four concepts As Goodson argues in *Strength of Mind* higher education in the twenty first century offers preparation for ordinary life Freedom and knowledge serve as the conditions for cultivating courage and hope within one s ordinary life More specifically courage and hope ought to be understood as the virtues required for enjoying ordinary life If college educated citizens wish to hold onto the concepts of courage and hope however then both courage and hope need to be understood as intellectual virtues As a moral virtue courage has become outdated As a theological virtue hope violates the logic of the golden mean Focusing on intellectual virtues also requires shifting from moral perfectionism to rational perfectionism Rational perfectionism involves keeping

impossible demands in view for oneself while constantly and continually striving for one's unattained but attainable self Goodson defends these arguments by learning from the bits of wisdom found within American Transcendentalism Emerson Cavell German Idealism Kant Hegel Jewish philosophy Maimonides Spinoza Putnam neo pragmatism Putnam Rorty West post modern theories about pedagogy Nietzsche Foucault Rorty and secular accounts of perfectionism Murdoch Cavell

MacIntyre's After Virtue at 40 Tom Angier, 2023-10-25 Since its publication in 1981 Alasdair MacIntyre's *After Virtue* has been recognised as a classic. Primarily a work of moral philosophy it also draws on sociology classics political science and theology to effect a unique intellectual synthesis and its combination of erudition and challenging even provocative argument has made a significant impact throughout the humanities disciplines. This volume of new essays unpacks the influence of *After Virtue* on ethical and political theory sociology and theology and offers a multi faceted exploration of its significance. The essays offer a way into MacIntyre's philosophy and demonstrate how rather than waning in influence over the past forty years his most seminal text has found an ever wider audience and continues to inspire controversy and debate in the humanities.

Leadership in Christian Higher Education Michael Wright, James Arthur, 2016-06-27 Universities and Colleges with a Christian affiliation have in recent years sought to renew and redefine their identities and almost all have rearticulated their mission for the modern age after a long and serious process of reappraisal. This process has been accompanied by an ongoing discussion of the nature and identity of higher education itself. This discussion has required leadership that is different from most secular leadership. This book provides a range of experienced voices including the Archbishop of Canterbury that reflect on the character and mission of leadership in Christian higher education in the 21st Century.

deliberation that can generate meaningful conceptions of justice the collective good and other unifying political values among individuals subscribing to varied and contrasting doctrines has been a perennial concern among political philosophers from historical thinkers such as Immanuel Kant to contemporary theorists like John Rawls and Jurgen Habermas In this ambitious study Mark Redhead explores versions of public reasoning in the works of six of the most important voices in contemporary political theory Alasdair MacIntyre Charles Taylor Hannah Arendt Seyla Benhabib Michel Foucault and William E Connolly He identifies an important but as of yet unappreciated version of public reasoning one that provides creative and effective responses to questions at the forefront of liberal democratic political thought human rights secularity and global governance

A Fundamental Theological Study of Radical Secularization and its Aftermath Alpo Penttinen, 2024-01-17 In the wake of various secularization processes a growing number of people in Western societies are now describing themselves as non religious But what does this sociological fact really mean for the Church and for society at large Has human religiosity a future after secularization It does this book argues but in a radically altered form Taking its cue from Pope Francis s suggestion that globalizing humanity is presently living through a genuine epochal shift this book presents an original analysis of the transformative effect of secularization on our spiritual predicament in the Western now definitively post Christian world Instead of succumbing to the all too common polarizations in contemporary religious discourse this book aspires to overcome the religious vs secular dichotomy through developing the logic of Radical Secularization arguably the genuine novelty of the particularly Western process of secularization The past homogeneously religious culture is certainly dusking but this only paves the way for the dawn of the future and radically open horizon for our human search for meaning This challenging book will offer intellectual impulses and spiritual incentives to everybody who ponders the future of human religious evolution after secularization
