capacities are acting persons made in the image of God and that all principles whether from Catholic Social Teaching or from Pope John Paul's Theology of the Body apply to every human being as much as to any other. The book also considers liberation theologies of disability and the Pope's reflections on suffering as well as the controversial area of the provision of hydration and nutrition for one most profoundly disabled person, the person in persistent vegetative state. In addition, it reflects on spirituality in the life of the profoundly disabled based on Karol Wojtyła's thesis on St. John of the Cross. As the title of the book explains, the profoundly disabled are only apparently non-acting; no one can discount the possibility of an inner spiritual life, and alongside all human beings, the profoundly disabled have spiritual needs, are called to a life of holiness, and are asked to cooperate in that calling as far as they are able. Moreover, all have a part to play in God's plan of salvation for all; we are workers in God's vineyard.

John Paul II, The Divine Plan Paul Kengor, Robert Orlando, 2019-06-11

Just six weeks apart in the spring of 1981, Pope John Paul II and President Ronald Reagan took bullets from would-be assassins. Few knew it at the time, but both men came close to dying. Surviving these near-death experiences created a singular bond between the pope and the president that historians have failed to appreciate. When John Paul II and Reagan met in the Vatican only a year later, they confided to each other a shared conviction: that God had spared their lives for a reason. That reason? To defeat communism. In private, Reagan had a name for this: the DP, the Divine Plan.
