Gods Rule The Politics Of World Religions:

God's Rule Suzanne Neusner, 2003-05-06 Resisting the tendency to separate the study of religion and politics editor Jacob Neusner pulls together a collection of ten essays in which various authors explain and explore the relationship between the world's major religions and political power As William Scott Green writes in the introduction Because religion is so comprehensive it is fundamentally about power it therefore cannot avoid politics Beginning with the classical sources and texts of Judaism Christianity Buddhism Islam Confucianism and Hinduism God's Rule begins to explore the complex nature of how each religion shapes political power and how religion shapes itself in relation to that power The corresponding attention to differing theories of politics and views towards non believers are important not only to studies in comparative religion but to foreign policy history and governance as well From early Christianity's relationship to the Roman Empire to Hinduism's relationship to Gandhi and the caste system God's Rule provides a basis of understanding from which undergraduates

seminarians and others can begin asking questions of relationships both unavoidable and systematically uneasy **From Religious Empires to Secular States** Birol Başkan, 2014-03-26 In the 1920s and the 1930s Turkey Iran and Russia vehemently pursued state secularizing reforms but adopted different strategies in doing so But why do states follow different secularizing strategies The literature has already shattered the illusion that secularization of the state has been a unilinear homogeneous and universal process and has convincingly shown that secularization of the state has unfolded along different paths Much however remains to be uncovered This book provides an in depth comparative historical analysis of state secularization in three major Eurasian countries Turkey Iran and Russia To capture the aforementioned variation in state secularization across three countries that have been hitherto analyzed as separate studies Birol Başkan adopts three modes of state secularization accommodationism separationism and eradicationism Focusing thematically on the changing relations between the state and religious institutions Başkan brings together a host of factors historical strategic and structural to account for why Turkey adopted accommodationism Iran separationism and Russia eradicationism In doing so he expertly demonstrates that each secularization strategy was a rational response to the strategic context the reformers found themselves in

The Illusion of Eternal Religious Law Joseph The Monotheist, 2024-09-22 This book is the third in a series that presents an attempt to understand the Qur'anic revelation published concurrently with the first and second volumes It continues on the work presented in the first two volumes of this series to propose a new interpretation of the Qur'anic revelation that is claimed to constitute a more accurate representation of the revelation The first three volumes of this series argue that the religion of Islam or rather the numerous interpretations of Islam are unacceptable representations of the Qur'anic revelation The proposed interpretation of the Qur'anic revelation challenges the standpoints of Traditional Islam on three key issues inclusiveness the sources of religious knowledge and the composition of any acceptable Qur'anic based interpretation of religion Each of the first three volumes of this series is dedicated to one of these topics respectively In this book the stance of the proposed interpretation of the Qur'anic revelation on law is addressed This position will prove to be of special significance particularly in the context of modernity and the modern state Furthermore Islamic law and its relationship to the religion of Islam is explored The proposed interpretation of the Qur'anic revelation does not see religion to be the source of law but rather it sees religion to be a source of ethics It sees that any acceptable interpretation of religion that is based on revealed scripture should have no law component It rejects religious law altogether and calls for the implementation of secular law In consequence the proposed interpretation of the Qur'anic revelation would be redefining the

role of religion and its domain of operation What Islam is the book talking about Is it one Islam that around one quarter of the world's population follows Are all of the commands in the Qur'an of eternal applicability What is Islamic law commonly referred to as Shari'a Why study Islamic law and why is it important to study it Is there only one Islamic law How does Islamic law relate to Islam Why does this book call for comprehensive religious reform and not religious law reform These questions and a multitude of others are addressed in this volume of the series This book is self-contained It can be read as part of the series or independently It does not require the reader to have previous knowledge in any of the topics discussed The book discusses topics you do not find in your typical book about the Qur'an or Islam It would interest those who want to learn about the Qur'an its message and Islamic law Among this group would be those searching for a reformed understanding of the Qur'an and how it applies today those interested to learn about Islamic law what it is and what it is not and those interested in monotheistic religions in general This book will prove to be particularly useful to those seeking to understand the problems in the contemporary interpretations of Islam and consequently how such problems reflect on the Muslim individual and societies in general Keywords Islam Islamic law eternal law revealed scriptures interpretations of scripture theology the Qur'an Quran Koran al-Qur'an el-Coran Sunna Hadith Shari'a Fiqh monotheism inclusiveness secularism philosophy of law philosophy of religion religious reform religious law reform Arab spring comparative religion philology semantics

Embracing Our Complexity Catherine Hudak

Klancer,2015-08-31 This book discusses what a religiously grounded authority might look like from the viewpoints of the European Catholic Thomas Aquinas 1225 1274 and the Chinese Neo Confucian Zhu Xi 1130 1200 The consideration of these two figures immensely influential in their respective traditions reflects the conviction that any responsible discourse on authority must consider different cultural perspectives Catherine Hudak Klancer notes that both Zhu Xi and Aquinas conceive wisdom as including yet surpassing human reason Both express an explicit faith in the moral order of the cosmos and the ethical potential of human beings The systematic idealistic approach common to both provides the cosmic anthropological and ethical elements needed for a comprehensive exploration of how to exercise and limit authority Ultimately Klancer writes authority requires a particular virtue hitherto latent in both scholars work and in their lives as well A person with this virtue humble authority is properly grounded in the sacred order and fully cognizant in theory and in practice of the parameters of human nature and the responsibilities attendant upon the human role Contemplative Democracy Shannon Lee Mariotti,2025 In Contemplative Democracy Shannon L Mariotti explores how contemplative practices represent a form of world building that is valuable for meaningful democracy and an overlooked form of ordinary political theory Reimagining the work of political theory employing feminist approaches and with a focus on educational spaces and democratic modes of pedagogy Mariotti examines contemplative practices as spaces where ordinary people do the work of democracy creating new political imaginaries finding new selves and founding new states of being Further this book reveals how the larger body politic may be reshaped by the everyday work people do in their own bodies A Social-Political History of Monotheism Jeremiah W. Cataldo,2018-01-03 In A Social Political History of Monotheism Cataldo shows how political concerns were fundamental to the development of Judeo Christian monotheism Beginning with the disruptive and devastating historical events that shook early Israelite culture and ending with the seemingly victorious emergence of Christianity under the Byzantine Empire this work highlights critical junctures marking the path from political frustration to imperial ideology Monotheism Cataldo argues was not an enlightened form of religion rather it was a cultic response to effluent anxieties pouring out from under the crushing weight of successive empires This provocative work is a valuable tool for anyone with an interest in the development of early Christianity alongside empires and cultures **World Religions** Emma Johnson,AI,2025-03-06 World Religions offers an expansive exploration of major faiths examining their origins beliefs traditions and global impact Understanding these diverse systems of belief is crucial for fostering empathy in our interconnected world The book uniquely presents a balanced nuanced perspective acknowledging internal debates and controversies within each religion For example it explores how religions have shaped art politics and social structures throughout history demonstrating their fundamental role in human civilization The book progresses systematically starting with an introduction to the importance of studying world religions Subsequent chapters delve into individual faiths like Hinduism Buddhism Judaism Christianity and Islam exploring their history key figures and sacred texts It also addresses

contemporary issues such as globalization conflict and social justice highlighting challenges and opportunities in interfaith dialogue By drawing upon primary sources and interdisciplinary insights from anthropology and sociology World Religions provides readers with a broad understanding of diverse religions promoting cross cultural understanding and informed perspectives on complex topics like religious pluralism and secularism

Wahhabi Islam Natana J. DeLong-Bas,2008-08-22 Before 9 11 few Westerners had heard of Wahhabism Today it is a household word Frequently mentioned in association with Osama bin Laden Wahhabism is portrayed by the media and public officials as an intolerant puritanical militant interpretation of Islam that calls for the wholesale destruction of the West in a jihad of global proportions In the first study ever undertaken of the writings of Wahhabism s founder Muhammad Ibn Abd al Wahhab 1702 1791 Natana DeLong Bas shatters these stereotypes and misconceptions Her reading of Ibn Abd al Wahhab s works produces a revisionist thesis Ibn Abd al Wahhab was not the godfather of contemporary terrorist movements Rather he was a voice of reform reflecting mainstream 18th century Islamic thought His vision of Islamic society was based upon a monotheism in which Muslims Christians and Jews were to enjoy peaceful co existence and cooperative commercial and treaty relations Eschewing medieval interpretations of the Quran and hadith sayings and deeds of the prophet Muhammad Ibn Abd al Wahhab called for direct historically contextualized interpretation of scripture by both women and men His understanding of theology and Islamic law was rooted in Quranic values rather than literal interpretations A strong proponent of women s rights he called for a balance of rights between women and men both within marriage and in access to education and public space In the most comprehensive study of Ibn Abd al Wahhab s interpretation of jihad ever written DeLong Bas details a vision in which jihad is strictly limited to the self defense of the Muslim community against military aggression Contemporary extremists like Osama bin Laden do not have their origins in Wahhabism she shows The hallmark jihadi focus on a cult of martyrdom the strict division of the world into two necessarily opposing spheres the wholesale destruction of both civilian life and property and the call for global jihad are entirely absent from Ibn Abd al Wahhab s writings Instead the militant stance of contemporary jihadism lies in adherence to the writings of the medieval scholar Ibn Taymiyya and the 20th century Egyptian radical Sayyid Qutb This pathbreaking book fills an enormous gap in the literature about Wahhabism by returning to the original writings of its founder Bound to be controversial it will be impossible to ignore

Religion and Politics Under Capitalism Stefan Arvidsson,2019-04-17 This book relates some of the major trends within religion and politics to offer a historical framework with which to assess their interactions and a point of departure for studies to come The study of the interrelationship between contemporary religious practice and modern politics is divided between several scholarly disciplines all embracing different terminologies as well as multiple theoretical and philosophical premises Such diversity of perspectives is to be welcomed but it can inhibit the ability

of academics to form a cohesive and coherent dialogue around the subject While critically assessing the historic sociological political theological and anthropological aspects of religion and politics the book demonstrates the crucial importance of recognising the capitalist economy as the framework for understanding their dynamic relationship Moreover it claims that humanism is the proper lens through which to critically engage with religion in society and must be the favoured point of departure for any study within the field This book offers a unique overarching viewpoint for of all these divergent scholarly trends and traditions As such it will be of significant use to academics in religious studies political science sociology and anthropology

Islam, Law and the Modern State Arif A. Jamal, 2018-03-14 Within the global phenomenon of the re emergence of religion into issues of public debate one of the most salient issues confronting contemporary Muslim societies is how to relate the legal and political heritage that developed in pre modern Islamic polities to the political order of the modern states in which Muslims now live This work seeks to develop a framework for addressing this issue The central argument is that liberal theory and in particular justice as discourse can be normatively useful in Muslim contexts for relating religion law and state Just as Muslim contexts have developed historically and continue to develop today the same is the case with the requisites of liberal theory and this may allow for liberal choices to be made in a manner that is not a renunciation of Muslim heritage

The Religious Left and Church-State Relations Steven H. Shiffrin, 2012-09-16 In The Religious Left and Church State Relations noted constitutional law scholar Steven Shiffrin argues that the religious left not the secular left is best equipped to lead the battle against the religious right on questions of church and state in America today Explaining that the chosen rhetoric of secular liberals is poorly equipped to argue against religious conservatives Shiffrin shows that all progressives religious and secular must appeal to broader values promoting religious liberty He demonstrates that the separation of church and state serves to protect religions from political manipulation while tight connections between church and state compromise the integrity of religious institutions Shiffrin discusses the pluralistic foundations of the religion clauses in the First Amendment and asserts that the clauses cannot be confined to the protection of liberty equality or equal liberty He explores the constitutional framework of religious liberalism applying it to controversial examples including the Pledge of Allegiance the government s use of religious symbols

the teaching of evolution in public schools and school vouchers Shiffrin examines how the approaches of secular liberalism toward church state relations have been misguided philosophically and politically and he illustrates why theological arguments hold an important democratic position not in courtrooms or halls of government but in the public dialogue The book contends that the great issue of American religious politics is not whether religions should be supported at all but how religions can best be strengthened and preserved

Altruism in World Religions Suzanne Neusner,Bruce Chilton,2005-11-08 In 1830 philosopher Auguste Comte coined the term altruism to provide a general definition for the act of selflessly caring for others But does this modern conception of sacrificing one s own interests for the well being of others apply to the charitable behaviors encouraged by all world religions In Altruism in World Religions prominent scholars from an array of religious perspectives probe the definition of altruism to determine whether it is a category that serves to advance the study of religion Exploring a range of philosophical and religious thought from Greco Roman philia to Judaism Christianity and Islam from Hinduism in India to Buddhism and the religions of China and Japan the authors find that altruism becomes problematic when applied to religious studies because it is in fact a concept absent from religion Chapters on Judaism Christianity and Islam reveal that followers of these religions cannot genuinely perform self sacrificing acts because God has promised to reward every good deed Moreover the separation between the self and the other that self sacrifice necessarily implies runs counter to Buddhist thought which makes no such distinction By challenging our assumptions about the act of self sacrifice as it relates to religious teachings the authors have shown altruism to be more of a secular than religious notion At the same time their findings highlight how charitable acts operate with the values and structures of the religions studied

Guests of God : Pilgrimage and Politics in the Islamic World Robert R. Bianchi

Formerly Associate Professor of Political Science University of Chicago, 2004-09-09 Each year more than two million pilgrims from over 100 countries converge on the holy city of Mecca to reenact the ritual dramas that Muslims have been performing for centuries Making the hajj is one of the most important duties in the life of a Muslim The pilgrimage and its impact on international politics is enormous and growing every year yet Westerners know virtually nothing about it What is the hajj and what does it mean Who are the hajjis What do they do and say in Mecca and how do they interpret their experiences Who runs the hajj and what are their political objectives How does the hajj encourage international cooperation among Muslims and can it also promote harmony between Islam and the West In *Guests of God* Robert R Bianchi seeks to answer these and many other questions While it is first and foremost a religious festival he shows the hajj is also very much a political event The Muslim world's leading multinational organization the Organization of the Islamic Conference has established the first international regime explicitly devoted to pilgrimage Every large Muslim nation has developed a comprehensive hajj policy and a powerful bureaucracy to enforce it Yet Bianchi argues no authority secular or religious national or international can really control the hajj Pilgrims believe that they are entitled to travel freely to Mecca as Guests of God not as guests of any nation or organization that might wish to restrict or profit from their efforts to fulfill a fundamental religious obligation Drawing on his personal experience as a pilgrim and a wealth of data gathered over the course of ten years of research Bianchi has produced a fascinating look at the hajj filled with personal candid stories from political and religious leaders and hajjis from all walks of life A wide ranging study of Islam politics and power *Guests of God* is the most complete picture of the hajj available anywhere
