Sex Work in Nepal Lisa Caviglia, 2017-09-05 This book explores sex work in Nepal as a social and analytical category. Narrating stories of those subsumed under such definition, it examines changes as well as continuities characterising socio-cultural norms and perceptions through an analysis of sexual consumption. It also highlights the ways in which the development sector, media and local community discourses frame sex work as a distinct category. How does the work of development aid projects affect the understanding of the sex worker category? How are visual and media images employed to mark spaces of perdition in the Nepalese urban setting and what forms of imagination do they trigger? How are intimate practices and relations transformed by imported notions of love and how do standards of propriety related to such interactions shift? This book attempts to answer some of these questions. An in-depth and intimate ethnography, the book deconstructs the sex worker category against the backdrop of global influences within local urban surroundings and points to the contradictions therein. Furthermore, through thorough descriptions of the experiences, agency, decision-making processes and lives of those labelled as sex workers, the book challenges concepts such as deviance and victimhood. It proposes a counternarrative by rethinking ideas of gender, objectification, marginality, symbolic violence and discrimination. This book will greatly interest researchers and scholars in women and gender studies, sociology and social anthropology, South Asian studies and social sciences as well as NGOs and those involved in the development sector.

Sexscapes of Pleasure Elena Zambelli, 2022-11-11 Focusing on Italy, this book discusses how women negotiate sexuality and social status in a Western sexscape constituted by multifaceted articulations of women's sexuality, commodities and modernity. Drawing from ethnographic research, this book brings together the narratives of Italian and migrant women pole dancing for leisure, women pole and lap dancing for work as well as women selling sex. By tracing commonalities in women's processes of subjectivation and othering across the non-sex working women divide, the book foregrounds the intersecting structures of oppression under which women negotiate selfhood.

*Love and Violence* Lea Melandri, 2018-01-01 A critical philosophical engagement of the psychological structures that propagate the continued oppression of women. In this book, the Italian feminist thinker Lea Melandri argues that systemic violence against women has deep psychoanalytic roots. Drawing inspiration from the work of Freud and the psychiatrist and psychoanalyst Elvio Fachinelli, along with feminist practices of consciousness-raising, Melandri demonstrates how male dominance and female subservience are established by society through a binary and oppositional understanding of sex and gender. This understanding and the oppression and violence against women that results is inscribed in the psyches of both men and women and is replicated anew from generation to generation. Melandri analyzes women in media, politics, philosophy and literature to show how this plays out and calls for awareness of these deep psychic structures and expectations formed within the dynamics of society and primary family relations. This is a book by a seasoned, experienced and quite committed Italian feminist thinker who has much to offer to our current context. Linking love and

violence as she does Melandri asks us to face the disturbing fact that deep often almost atavistic ties between son and mother and then husband and wife are the source both of intense bonds of love as well as furious clashes of hate and violent acting out For this insight and for the careful way she works out her argument in this book Melandri should be read by an English language audience and this fine translation will provide the means for it to do so Rebecca West University of Chicago

Bergström, 2021-12-21 Online dating has become a widespread feature of modern social life In less than two decades seeking partners through commercial intermediaries went from being a marginal and stigmatized practice to being a common activity How can we explain this rapid change and what does it tell us about the changing nature of love and sexuality In contrast to those who praise online dating as a democratization of love and those who condemn it as a commodification of intimacy this book tells a different story about how and why online dating became big The key to understanding the growing prevalence of digital dating lies in what Marie Bergström calls the privatization of intimacy Online dating takes courtship from the public to the private sphere and makes it a domestic and individual practice Unlike courtship in traditional settings such as school work and gatherings of family and friends online dating makes a clear distinction between social and sexual sociability and renders dating much more discrete Apparently banal this privatizing feature is fundamental for understanding both the success and the nature of digital matchmaking Bergström also sheds light on the persisting inequalities of intimate life showing that online dating is neither free nor fair it has its winners and losers and it differs significantly according to gender age and social class Drawing on a wide range of empirical material this book challenges what we think we know about online dating and gives us a new understanding of who why and how people go online to seek sex and love *Constellations of*

*Reading* Carlo Salzani, 2009 How to read Walter Benjamin today This book argues that the proper way is through an approach which recognizes and respects his own peculiar theorization of the act of reading and the politics of interpretation that this entails The approach must be figural that is focused on images and driven by the notion of actualization Figural reading in the very sui generis Benjaminian way understands figures as constellations whereby an image of the past juxtaposes them with an image of the present and is thus actualized To apply this method to Benjamin's own work means first to identify some figures The book singles out the Flâneur the Detective the Prostitute and the Ragpicker and then sets them alongside a contemporary account of the same figure the Flâneur in Juan Goytisolo's *Landscapes after the Battle* 1982 the Detective in Paul Auster's *New York Trilogy* 1987 the Prostitute in Dacia Maraini's *Dialogue between a Prostitute and her Client* 1973 and the Ragpicker in Mudrooroo's *The Mudrooroo Miller Project* 1993 The book thereby on the one hand analyses the politics of reading Benjamin today and on the other sets his work against a variety of contemporary aesthetics and politics of interpretation **White Middle-Class Men in Rio de Janeiro** Valeria Ribeiro Corossacz, 2017-12-06 In this

book based on the biographical accounts of upper middle class white men living in wealthy parts of Rio de Janeiro Valeria

Ribeiro Corossacz analyzes specific experiences of whiteness as they are produced at the intersection of multiple categories in particular gender class and sexuality *White Middle Class Men in Rio de Janeiro The Making of a Dominant Subject* investigates what it means to be classified as a white person and a man in a society that is known for its valorization of racial mixing and yet deeply structured by racism class and gender inequalities By examining instances of silence and what is left unsaid as well as precise descriptions of power relations and violent episodes this book encourages the reader to observe the condition of dominant subjects as a keystone of the reproduction of social discrimination Ethnography Vincenzo Matera, Angela Biscaldi, 2020-12-04 This volume presents both a historical exploration of ethnography and a thematic discussion of major trends that over different periods have oriented and re oriented research practice As it overviews ethnography from different geographic and thematic perspectives it further explores new lines of ethnographic research including as feminist ethnography and visual research that uncover non traditional routes to anthropological knowledge As the great ethnographer E E Evans Pritchard wrote Anyone who is not a complete idiot can do fieldwork but will his contribution be to theoretical or just to factual knowledge As Evans Pritchard highlights and as this book argues successful ethnography must be connected to a sophisticated theoretical reflection rooted in social and cultural anthropology
