Rodríguez O.,2018 Political Culture in Spanish America 1500 1830 examines the nature of Spanish American political culture by reevaluating the political theory institutions and practices of the Hispanic world Consisting of eight case studies with a focus on New Spain and Quito Jaime E. Rodríguez O. demonstrates that the process of independence of Spanish America differs from previous claims In 1188 King Alfonso IX convened the Cortes the first congress in Europe that included the three estates the clergy the nobility and the towns This heritage along with events in the sixteenth century including the rebellion of Castilla and the Protestant Reformation transformed the nature of Hispanic

political thought Rodríguez O argues that those developments rather than the Enlightenment were the basis of the Hispanic revolution and the Constitution of 1812 Emphasizing continuity rather than the rejection of Hispanic political culture as well as the Atlantic perspective Political Culture in Spanish America 1500 1830 demonstrates the nature of the Hispanic revolution and the process of independence Rodríguez O's work will encourage historians of Spanish America to reexamine the political institutions and processes of those nations from a broad perspective to gain a deeper understanding of the Spanish American countries that emerged from the breakup of the composite monarchy
