RÉSUMÉ

De nature contemplative, Eugène Fromentin sait peindre ou écrire à loisir. La découverte de l'Algérie sera portuse de sens dans l'exercice de son art. Le regard sélectionne et délimite l'objet d'étude, mais l'outil employé pour le représenter en conditionne l'image: la plume l'aide à saisir la spécificité du paysage oriental; le pinceau, lui, reste sous l'autorité de l'œil. Le texte devient ainsi l'apprentissage pour le lecteur, tandis que le tableau traduit par le visible l'invisible de la subjectivité.

La obra de Eugène Fromentin: entre percepción y representación del paisaje

RESUMEN

Contemplativo por naturaleza, Eugène Fromentin sabe lo mismo pintar que escribir. El descubrimiento de Argelia revolucionará su arte. La mirada selecciona el objeto de estudio, pero la herramienta utilizada para representarlo condiciona los rasgos de la imagen: la pluma permite aprehender la especificidad del paisaje oriental; el pincel, por su parte, permanece bajo la autoridad de la visión. De ese modo, el texto se torna aprendizaje para el lector, mientras que el cuadro, por la mediación de lo visible, traduce mejor lo invisible de la subjetividad.

The work of Eugène Fromentin: perception and landscape representation

ABSTRACT:

Contemplative by nature, Eugène Fromentin knows as much about painting as he does writing. His discovery of Algiers revolutionises his art. His eye selects his objects of study but the tools used to represent it condition the characteristics of the object. His pen allows the understanding of detail in oriental landscape; and his paintbrush remains "under the authority of vision". This way, the text becomes learning for the reader while the picture and the mediation of sight expresses rather better the invisibility of the subjectivity.

La Vie Et L'oeuvre De Eugene Fromentin:

La vie et l'œuvre d'Eugène Fromentin James Thompson, Barbara Wright, 1987 Chez Eugène Fromentin la primauté de l'Orient se fait sentir dans tout son œuvre peint et dans ses écrits de voyage. À La Rochelle il avait dès son enfance formé un attachement aux grandes lignes fuyantes de l'horizon atlantique perspective qui devait le préparer à affronter cette autre immensité qui lui semblait comme la mer moins la couleur c'est-à-dire le désert. Fromentin contemple le monde islamique avec une discrétion absolue rassemblant d'amples renseignements anthropologiques et linguistiques sans forcément s'en servir dans son œuvre. Sa manière de voir se rattache aux lieux, aux ambiances, aux atmosphères plutôt qu'aux événements dramatiques.

Defending the West Ibn Warraq, 2010-06-03 This is the first systematic critique of Edward Said's influential work *Orientalism* a book that for almost three decades has received wide acclaim voluminous commentary and translation into more than fifteen languages Said's main thesis was that the Western image of the East was heavily biased by colonialist attitudes racism and more than two centuries of political exploitation Although Said's critique was controversial the impact of his ideas has been a pervasive rethinking of Western perceptions of Eastern cultures plus a tendency to view all scholarship in Oriental Studies as tainted by considerations of power and prejudice In this thorough reconsideration of Said's famous work Ibn Warraq argues that Said's case against the West is seriously flawed Warraq accuses Said of not only willfully misinterpreting the work of many scholars but also of systematically misrepresenting Western civilization as a whole With example after example he shows that ever since the Greeks Western civilization has always had a strand in its very makeup that has accepted non Westerners with open arms and has ever been open to foreign ideas The author also criticizes Said for inadequate methodology incoherent arguments and a faulty historical understanding He points out not only Said's tendentious interpretations but historical howlers that would make a sophomore blush Warraq further looks at the destructive influence of Said's study on the history of Western painting especially of the 19th century and shows how once again the epigones of Said have succeeded in relegating thousands of first class paintings to the lofts and storage rooms of major museums An extended appendix reconsiders the value of 18th and 19th century Orientalist scholars and artists whose work fell into disrepute as a result of Said's work

On Verbal / Visual Representation, 2005-01-01 The twenty one essays collected in this volume offer a broad range of critical views on the intricate interdependence between verbal and visual representation Drawing on recent research scholars from Europe America and Asia approach the topic from a host of different angles exploring topics such as popular visual cultures in Japan devotional graffiti in a Piedmontese chapel textual trompe l'oeil in Jaques Derrida's *Memoirs of the Blind* or the relationship between the landscape paintings of Albert Bierstadt and the representation of landscape in the texts of James Fenimore Cooper The International Association of Word and Image Studies was founded nearly twenty years ago 1987 and is based in Amsterdam One of the aims of the association is to be a forum for both theoretical debate and innovative research in different disciplines Over the years the IAWIS triennial conferences and the IAWIS publications have established themselves as internationally acknowledged sites where literary critics art historians architects art and design
