**Distant Relation** Eoin S. Thomson, 2001-01-24 The Distant Relation breaks down the artificial division between philosophy and literature by weaving contemporary philosophic arguments through close readings of Carpentier, Rulfo, Paz and García Márquez Thomson draws the reader into the largely uninhabited space between philosophy and literature providing new critical strategies that allow text and reader to respond to the very distance they share These strategies involve a reconceptualization of distance that recognizes the productive and affirmative nature of separation The Distant Relation will attract anyone interested in the ongoing struggle to overcome conventional interpretations of language time and identity within the broader context of philosophical trends and Spanish American studies *Línea Obstáculo* (Spanish Edition) Francisco R. **The Spanish American Novel** John S. Brushwood,2014-07-03

In *The Spanish American Novel* John S Brushwood analyzes the twentieth century Spanish American novel as an artistic expression of social reality In relating the generic history of the novel to extraliterary events in Spanish America he shows how twentieth century fiction sets forth the essence of such phenomena as the first Per n regime the Mexican Revolution the Che Guevara legend indigenismo and the strongman political type In essence he views the novel as art rather than as document but not as art alienated from society The discussion is organized chronologically opening with the turn of the century and focusing on novels from 1900 to 1915 that exemplify various aspects of the nineteenth century literary inheritance Brushwood then highlights the avant garde fiction influenced by Proust and Joyce of the 1920s as a precursory movement to the new Latin American novel a phenomenon that came into its own during the 1940s He then examines the boom in Spanish American fiction the period of extensive international recognition of certain works which he dates from 1962 or 1963 In each era considered the development of the novel is placed in dual perspective One view that of particularly significant novels in light of others published during the same year is a cross section of the genre at one particular moment The second view that of a panorama of novels published in intervals between significant moments in the history of the novel is more general and selective in the number of books discussed Combining the historical with the analytical approach the author proposes that the experience of a novel in which reality has been transformed into art is essential to our understanding of that reality

Williams, 2010 This book offers discussion and analysis of the subtle writing of Nobel Laureate Gabriel García Márquez a traditionalist who draws from classic Western texts a Modernist committed to modernizing the conservative literary tradition in Colombia and Latin America an internationally recognized major writer of the 1960s Boom the key figure in popularizing what has been called magic realism and finally a Modernist who has occasionally engaged in some of the strategies of the postmodern The author demonstrates that García Márquez is above all a committed and highly accomplished Modernist fiction writer who has successfully synthesized his political vision in his writing and absorbed a vast array of cultural and literary traditions Drawing on García Márquez's interviews with Williams and others over the years the book also explores the importance of the non literary the presence of oral tradition and the visual arts thus providing a more complete insight into García Márquez's strategies as a Modernist with heterogeneous aesthetic interests as well as an understanding of his social and political preoccupations RAYMOND LESLIE WILLIAMS is Professor of Latin American Literature at the University of California Riverside

**The Twentieth-Century Spanish American Novel** Raymond Leslie Williams, 2009-07-21 A Choice Magazine Outstanding Academic Book Spanish American novels of the Boom period 1962-1967 attracted a world readership to Latin American literature but Latin American writers had already been engaging in the modernist experiments of their North American and European counterparts since the turn of the twentieth century Indeed the desire to be modern is a constant preoccupation in twentieth century Spanish American literature and thus a very useful lens through which to view the century's novels In this pathfinding study Raymond L Williams offers the first complete analytical and critical overview of the Spanish American novel throughout the entire twentieth century Using the desire to be modern as his organizing principle he divides the century's novels into five periods and discusses the differing forms that the modern took in each era For each period Williams begins with a broad overview of many novels literary contexts and some cultural debates followed by new readings of both canonical and significant non canonical novels A special feature of this book is its emphasis on women writers and other previously ignored and/or marginalized authors including experimental and gay writers Williams also clarifies the legacy of the Boom the Postboom and the Postmodern as he introduces new writers and new novelistic trends of the 1990s
