**Breastfeeding in Hospital** Fiona Dykes, 2006-09-27 Breast is best is today's prevailing mantra. However, women, particularly first-time mothers, frequently feel unsupported when they come to feed their baby. This new experience often takes place in the impersonal and medicalized surroundings of a hospital maternity ward where women are seen to by overworked midwives. Using a UK-based ethnographic study and interview material, this book provides a new, radical and critical perspective on the ways in which women experience breastfeeding in hospitals. It highlights that, in spite of heavy promotion of breastfeeding, there is often a lack of support for women who begin to breastfeed in hospitals, thus challenging the current system of postnatal care within a culture in which neither service user nor provider feel satisfied. Incorporating recommendations for policy and practice on infant feeding, *Breastfeeding in Hospital* is highly relevant to health professionals and breastfeeding supporters as well as to students in health and social care, medical anthropology and medical sociology as it explores practice issues while contextualising them within a broad social, political and economic context. Nighttime Parenting (Revised) William Sears, 1999-11-01 Parenting is a job that goes on twenty-four hours a day. *Nighttime Parenting* helps parents understand why babies sleep differently than adults, offers solutions to nighttime problems, and even describes how certain styles of nighttime parenting can aid in child spacing and lower the risks of Sudden Infant Death Syndrome. Renowned pediatrician Dr. William Sears helps you find a solution to your baby's sleepless nights. Directed at lessening night waking and increasing your ability to cope, this understanding guide offers comprehensive caring advice on where your baby should sleep, what foods help children sleep, nighttime fathering tips for single parents, getting children to bed without a struggle, and much more. **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954**, 2003 Impact of Birthing Practices on Breastfeeding Linda J. Smith, Mary Kroeger, 2009-09-24 This text examines the research and evidence connecting birth practices to breastfeeding outcomes. It takes an in-depth look at the post-birth experiences of the mother and baby, using the baby's health as the vehicle and the intact mother-baby dyad as the model to address birth practices that affect breastfeeding. The Second Edition has been completely revised to include new information on infant outcomes, including epidural anesthesia and Cesarean surgery, clinical strategies for helping the mother and baby recover from birth injuries, medications and complications, and information on Baby-Friendly Hospital Initiatives with a Mother-Friendly Module. The Lactation Consultant in Private Practice Linda J. Smith, 2003 This book presents in a fun and user-friendly manner an orientation and guide to the lactation consultant profession as manifested by the Private Practice Lactation Consultant. **The Womanly Art of Breastfeeding** La Leche League International, 2010-07-13 The revised go-to resource on breastfeeding that mothers have relied on for generations, La Leche League has for many years set the standard for supporting families in the art of breastfeeding. Kedrowski,Michael E. Lipscomb,2007-12-30

Breastfeeding Rights in the United States shows that the right to breastfeed in this country exists only in a negative sense you can do it unless someone takes you to court Kedrowski and Lipscomb catalog and analyze all the laws policies judicial opinions cultural mores and public attitudes that bear on breastfeeding in America They then explore the classic double bind social norms promulgated by the medical and public health establishment say breast is best but social practices in the

workplace and in public spaces make breastfeeding difficult Aggravating the double bind is the prominence of the breast in American culture as a sexual object The double bind creates coercively structured choices that are incompatible with the meaningful exercise of rights The authors conclude that the solution to this problem requires new theory and new strategy They posit a new democratic feminist theory of the breastfeeding right that is predicated on the following distinctions DT It is not a right to breastfeed but a right to choose to breastfeed DT It is a woman s right to choose not a baby s right to be breastfeed DT It is a right not a duty The authors predict that framing the breastfeeding right in this way provides the basis for a new strategic coalition between breastfeeding advocates and liberal feminists who have historically been wary of one another s rhetoric Breastfeeding Rights in the United States represents an important advance toward policy change
