**Maestría** Robert Greene,2019-06-01 Al paso de los siglos la humanidad ha levantado una barrera en torno a la idea de maestría La ha llamado genio y la ha creído inaccesible La ha visto como resultado de privilegios sociales del talento innato de cada individuo o de la alineación correcta de las estrellas Pero esa barrera es imaginaria Nuestro cerebro es producto de seis millones de años de desarrollo y gracias a los somos capaces de desatar el poder latente en nuestro interior A partir del ejemplo de individuos como Leonardo Mozart Edison Einstein y tantos otros Robert Greene expone las razones por las que todos tenemos la posibilidad de desarrollar nuestras facultades para alcanzar el mayor punto del potencial humano La vocación el aprendizaje y la práctica rigurosa son las claves para tomar las riendas de nuestro destino explotar nuestro talento y satisfacer nuestros anhelos de crear y de llegar a la cima     *James Mabbe, The Spanish Bawd James*

provides a succinct account of its Castilian origins and English reception as part of international networks of exchange These networks included cultural agents engaged in the establishment of vernacular canons through the appropriation of alien literary capital As they did so these national traditions also sought to homogenize their respective linguistic communities into a commonwealth of speakers that could be used for the establishment of a comprehensive polity upon a common body of laws and social norms As a forerunner of the picaresque which also addresses the language and values that regulate the relations between self and society The Spanish Bawd exposes the paradoxes of self interest as the keystone for a life in common Jos Mar a P rez Fern ndez is senior lecturer in English Literature and Cultural Translation at the University of Granada
