**Retablo de Isabel la Católica by Juan de Flandes and Michel Sittow** Chiyo Ishikawa,2004 This book is the first serious monograph about the Retablo de Isabel la Católica ca 1496-1504 painted by Juan de Flanders and Michel Sittow Tracing the critical history of the altarpiece and publishing some archival material for the first time it presents the first discussion and technical examination of the individual panels including infrared reflectography and microscopie examination of the painted surface Technical examination also reveals the subject matter was closely related to the religious and political issues that concerned Queen Isabella in the waning years of her reign The conservatism inherent in the austere painted treatment of the lives of Christ and the Virgin Mary is compared to conservative works of religious literature commissioned by or dedicated to the Queen in the years that the altarpiece was being painted Finally a brief catalogue of the surviving twenty eight panels will restore a degree of narrative coherence to a project that is too little understood in large part because of the early dispersal of its paintings      **Archivo de arte valenciano ,1915**      **Boletín de archivos, bibliotecas y museos ,1877**
