Memory and Spatiality in Post-Millennial Spanish Narrative. Lorraine Ryan, 2016-04-22. Focusing on literary texts produced from 2000 to 2009. Lorraine Ryan examines the imbrication between the preservation of Republican memory and the transformations of Spanish public space during the period from 1931 to 2005. Accordingly, Ryan analyzes the spatial empowerment and disempowerment of Republican memory and identity in Dulce Chac n s *Cielos de barro*, ngeles L pez s *Martina la rosa*, n mero trece Alberto M ndez s *Los girasoles ciegos*, Carlos Ruiz Zaf n s *La sombra del viento*, Emili Teixidor s *Pan negro*, Bernardo Atxaga s *El hijo del acordeonista* and Jos Mar a Merino s *La sima*. The interrelationship between Republican subalternity and space is redefined by these writers as tense and constantly in flux, undermined by its inexorable relationality which leads to subjects endeavoring to instill into space their own values. Subjects erode the hegemonic power of the public space by articulating in an often surreptitious form their sense of belonging to a prohibited Republican memory.

culture In the democratic period they seek a categorical reinstatement of same on the public terrain Ryan also considers the motivation underlying this coterie of authors commitment to the issue of historical memory an analysis which serves to amplify the ambits of existing scholarship that tends to ascribe it solely to postmemory *A Diffuse Murmur of History* Fiona Schouten,2010 After decades of uncomfortable silence Spain has now started dealing with its violent twentieth century past In recent years a vibrant memory discourse has emerged in Spanish society the number of films TV series newspaper articles history books and memorials dedicated to the Civil War of 1936 1939 and the ensuing dictatorship of Franco has increased dramatically Literature has also played its part in provoking and maintaining this memory boom and as a consequence the study of contemporary Spanish novels has started revolving around questions on the responsibility of the author on the impact of literature in society on its role in shaping memories and on its ethical status This book takes up these questions in an attempt to combine the outlook of collective memory studies with the theoretical demands of Poststructuralist theories Focusing on themes such as haunting and the uncanny nostalgia the Bildungsroman genre and autobiography its author analyses memory narratives in fourteen novels by foremost Spanish authors like Javier Mar as Luis Goytisolo Enrique Vila Matas and Manuel Vicent From publisher s website *New Spain, New Literatures* Luis Martín-Estudillo,Nicholas Spadaccini,2010-09-27 Hispanic Studies Literature Latin American Studies *Tiempo de prórroga* ,2006 Contemporary Spanish Gothic Ann Davies,2016-10-27 Examines Spain s contribution to international interest in Gothic culture film and literatureWith the success of novels such as *The Shadow of the Wind* and films like *The Others* contemporary Spanish culture has contributed a great deal to the imagery and experience of the Gothic although such contributions are not always recognised as being specifically Spanish in origin Contemporary Spanish Gothic is the first book to study how the Gothic mode intersects with cultural production in Spain today considering some of the ways in which such production feeds off and simultaneously feeds into Gothic production more widely Examining the works of writers and filmmakers like Carlos Ruiz ZafAn Arturo PA c rez Reverte Pedro AlmodAvar and Alejandro AmenA bar as well as the further reaches of Spanish Gothic influence in the Twilight film series the book considers images and themes like the mad surgeon and the vulnerable body the role of the haunted house and the heritage biopics of Francisco de Goya Retooling Study Abroad Carmen Granda,2023-11-02 Study abroad is the ideal option for world language students to immerse themselves in the target language and culture However circumstances beyond control may make travel challenging evenimpossible Technology has the potential to engage students and provide an opportunity for linguistic and cultural immersion from home In addition to immersing students in the target language and culture Carmen Granda shows that technology can be implemented in all world language courses to foster connections and comparisons and most importantly create community in and outside of the classroom She demonstrates that digital tools have the power to make language learning inclusive of and accessible to all students fulfilling diversity equity and inclusion DEI goals of higher education Postnational Perspectives on
