Babich,2013-06-29 perceptual essences that can be rendered directly manifest in perception with the help of theoretically structured instruments serving as readable technologies Scientific knowledge should thus be understood as an extension of unassisted perception A perceptual fact has an outer horizon which separates it from the ground on which it appears and an inner horizon composed of a multiplicity of possible perceptual profiles organized by an invariant essence The perceiving subject can bring forth a representative sample of the profiles in question occasionally by making use of certain technological processes which are themselves subject to interpretation in terms of theoretical representations The theoretical entities described in these representations are not simply detected thanks to an inferential operation but rather they are directly perceived It follows from this that the correspondence between the manifest image and the scientific image is not done one to one but by a many to one or one to many application between contextually defined perceptual objects within contexts that are mutually incompatible but complementary This should not however be understood as a form of conventionalism nor as a

form of cultural relativism Pre comprehension which guides interpretation imposes strict limits to the descriptive categories which can be used and to the manner in which they can be linked to appropriate empirical objects The author applies his hermeneutic principles to the study of visual perception In fact this question is treated in the first part of the book **The Best Travel Writing, Volume 11** James O'Reilly,Larry Habegger,Sean O'Reilly,2016-08-22 The Best Travel Writing Volume 11 is the latest in the annual Travelers Tales series launched in 2004 to celebrate the world s best travel writing from Nobel Prize winners to emerging new writers The points of view and perspectives are global and themes encompass high adventure spiritual growth romance hilarity and misadventure service to humanity and encounters with exotic cuisines and cultures Includes winners from the annual Solas Awards for Best Travel Writing Introduction by Rolf Potts In The Best Travel Writing Volume 11 readers will Piece together the puzzle of life in rural Cambodia Reawaken the joy of travel on a bus ride through Mexico Reexamine war memories with former soldiers in Vietnam Learn the ropes and the art of sailing with a good captain on the Pacific Find a true soul sister in the highlands of Ecuador Follow Vincent van Gogh s footsteps in France Survive or not a home invasion in Brazil and much more Strategies that Work Stephanie Harvey,Anne Goudvis,2007 Describes strategies teachers can use to promote reading comprehension in students from kindergarten through eighth grade and includes examples of student work illustrations and other reference tools Reading the World's Stories Annette Y. Abbreviated Lives Tragic Tales of Artists Scientists and Writers Debananda Singh Ningthoujam, 2022-06-03 Abbreviated Lives profiles the life stories of artists scientists writers whose creative odysseys have been cut short by circumstances penury lack of recognition mental breakdown dictatorship and war etc It also portrays the Matilda effect how some women s contributions have been stolen by male colleagues supervisors or husbands However tragic the conditions in which they might have worked all the characters in this book took passionate creative journeys till the final exit From them we may reaffirm that the journey matters more than the destination one can rise to great heights in life given grit commitment and hard work These tragic stories also teach us that the efflorescence of artistic and scientific creativity needs democracy and freedom of thought it may be cruelly stifled if not completely destroyed by unscrupulous dictators and authoritarian rulers These tales not only can inspire the readers to carry forward their own journeys moreover they may ignite us to promote institutional cultural and social factors that would help nurture the full blossoming of creative lives so that the society may fully harvest their artistic literary and scientific contributions Sincere creative journeys the lonely expeditions of pioneers would never go in vain someday kindred spirits would retrace the paths blazed by the forerunners

Van Gogh's Ear Bernadette Murphy, 2016-07-12 The best known and most sensational event in Vincent van Gogh s life is also the least understood For more than a century biographers and historians seeking definitive facts about what happened on a December night in Arles have unearthed more questions than answers Why would an artist at the height of his powers commit such a brutal act Who was the mysterious Rachel to whom he presented his macabre gift Did he use a razor or a knife Was it just a segment or did Van Gogh really lop off his entire ear In *Van Gogh s Ear* Bernadette Murphy reveals for the first time the true story of this long misunderstood incident sweeping away decades of myth and giving us a glimpse of a troubled but brilliant artist at his breaking point Murphy s detective work takes her from Europe to the United States and back from the holdings of major museums to the moldering contents of forgotten archives She braids together her own thrilling journey of discovery with a narrative of Van Gogh s life in Arles the sleepy Provençal town where he created his finest work and vividly reconstructs the world in which he moved the madams and prostitutes caf patrons and police inspectors shepherds and bohemian artists We encounter Van Gogh s brother and benefactor Theo his guest and fellow painter Paul Gauguin and many local subjects of Van Gogh s paintings some of whom Murphy identifies for the first time Strikingly Murphy uncovers

previously unknown information about Rachel and uses it to propose a bold new hypothesis about what was occurring in Van Gogh's heart and mind as he made a mysterious delivery to her doorstep. As it reopens one of art history's most famous cold cases, Van Gogh's Ear becomes a fascinating work of detection. It is also a study of a painter creating his most iconic and revolutionary work, pushing himself ever closer to greatness even as he edged toward madness and one fateful sweep of the blade that would resonate through the ages.

Monstrous Imaginaries Maaheen Ahmed, 2019-11-29

Monsters seem inevitably linked to humans and not always as mere opposites. Maaheen Ahmed examines good monsters in comics to show how Romantic themes from the eighteenth and the nineteenth centuries persist in today's popular culture. Comics monsters questioning the distinction between human and monster, self and other, are valuable conduits of Romantic inclinations. Engaging with Romanticism and the many monsters created by Romantic writers and artists such as Mary Shelley, Victor Hugo, and Goya, Ahmed maps the heritage, functions, and effects of monsters in contemporary comics and graphic novels. She highlights the persistence of recurrent Romantic features through monstrous protagonists in English and French language comics and draws out their implications. Aspects covered include the dark Romantic predilection for ruins and the sordid, the solitary protagonist and his quest, nostalgia, the prominence of the spectacle, as well as excessive emotions, and above all, the monster's ambiguity and rebelliousness. Ahmed highlights each Romantic theme through close readings of well-known but often overlooked comics, including Enki Bilal's *Monstre* tetralogy, Jim O'Barr's *The Crow*, and Emil Ferris's *My Favorite Thing Is Monsters*, as well as the iconic comics series Alan Moore's *Swamp Thing* and Mike Mignola's *Hellboy*. In blurring the otherness of the monster, these protagonists retain the exaggeration and uncontrollability of all monsters while incorporating Romantic characteristics.
