Carving Devotion in the Jain Caves at Ellora Lisa Owen, 2012-04-03 Drawing on art historical epigraphical and textual evidence this book is the first full scale reconstruction of medieval Jain activities at Ellora It not only highlights the understudied Jain caves but examines them in concert with Ellora's Hindu and Buddhist monuments The sepoy's daughter, a true tale of the Indian war, by an eye-witness Eye witness, 1860 **Indian Antiquary**, 1897 At a time when each Society had its own medium of propagation of its researches in the form of Transactions Proceedings Journals etc a need was strongly felt for bringing out a journal devoted exclusively to the study and advancement of Indian culture in all its aspects This encouraged Jas Burgess to launch the Indian antiquary in 1872 The scope was in his own words as wide as possible incorporating manners and customs arts mythology feasts festivals and rites antiquities and the history of India Another laudable aim was to present the readers abstracts of the most recent researches of scholars in India and the West Indian antiquary also dealt with local legends folklore proverbs etc In short Indian antiquary was entirely devoted to the study of MAN the Indian in all spheres Introduction to facsimile volumes published 1985 *The World and Its People* Charles Francis Horne, 1925 **Thoroughbred Record**, 1921 Includes a statistical issue title varies slightly 1947 **The Medical Fortnightly**, 1908 Vraman Sangi, 1990 Travel guide to India **France**, 1919 *The Americana*, 1923 *The Ellora Monoliths* K. V. Soundara Rajan, 1988 This book seeks to lift into focus the monolithic legacy of the Rashtrakutas at Ellora from out of the reason that these monoliths perhaps are best suited to understand and reconstruct the artistic architectural traditional religious and cult interactions and growth spectra that had taken place in the period from the 8th to the 10th century A D very much more eloquently than the study of the cave temple types Without the stabilizing role of these monoliths in the over view of the status of temple art in that period which the Rashtrakutas adorned by their vigorous patronage eclecticism and multi pronged political thrusts all over India in their heyday the cave art syndrome would tend to cloy even under the best circumstances as something repetitive potteries and commandeered which surely it was not The book deals with the five monoliths at Ellora in their own historical architectural iconographic religious perspectives and elucidates how they were greatly diversified and pregnant with rich potential for the reconstruction of the are situation and it compares them also with their compeer monoliths elsewhere in South India in the same ilk as in the Pallava and Pandya zones of the past The chief aim of the book is to give a satisfactory formal picture of these monoliths and to vest them with the credit of being land marks in the arche types they sought to represent Profusely illustrated and with a helpful set of charts and glossary it is designed to cover a felt need in art studies at Ellora Ajanta: History and Development, Volume 7 Bagh, Dandin, Cells and Cell Doorways Walter Spink, 2017-01-09 Walter Spink's intense concern with the development of the Ajanta caves and their architectural sculptural and painted features finds its most insistent reflection in his present richly illustrated study In part 1 Spink explains the many connections between the Bagh caves and its sister site Ajanta He

particularly emphasizes the leading role that Bagh plays in establishing the short chronology and in the crucial matter of Buddhist shrine development from the aniconic to iconic forms of worship In part 2 along with his colleague Professor Naomichi Yaguchi who also provided the photographs and the newly informative plans the authors show how over the course of a mere decade better and better ways were discovered to fit the doors in the cells where the monks lived Such an analysis reveals the vigor of the conceptual and technical changes that characterize Ajanta's evolution from its start in the early 460s to its traumatic collapse in about 470 Moving from Ajanta's beginning to its ending the evolution of door fittings parallels the precise and dramatic development of Indian history in the remarkable course of the emperor Harisena's reign
